## **Independent auditor's report to the directors of T.S. Lines Limited**

*(Incorporated in Hong Kong with limited liability)*

### **Opinion**

We have audited the consolidated financial statements of T.S. Lines Limited (“the Company”) and its subsidiaries (“the Group”) set out on pages 4 to 71, which comprise the consolidated statements of financial position of the Group and the statements of financial position of the Company as at December 31, 2021, 2022 and 2023 and April 30, 2024, the consolidated statements of profit or loss and other comprehensive income, the consolidated statements of changes in equity and the consolidated cash flow statements for each of the years ended December 31, 2021, 2022 and 2023 and the four months ended April 30, 2024 and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the Company's and the Group's financial position as at December 31, 2021, 2022 and 2023 and April 30, 2024 and of the Group's consolidated financial performance and the Group's consolidated cash flows for each of the years ended December 31, 2021, 2022 and 2023 and the four months ended April 30, 2024 in accordance with the basis of preparation and presentation set out in note 1 to the consolidated financial statements.

### **Basis for opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). Our responsibilities under those standards are further described in the “Auditor's responsibilities for the audit of the consolidated financial statements” section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (“the Code”) together with any ethical requirements that are relevant to our audit of the consolidated financial statements in Hong Kong, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Independent auditor's report to the directors of T.S. Lines Limited (continued)**

*(Incorporated in Hong Kong with limited liability)*

### **Emphasis of Matter – Basis of Preparation and Presentation**

We draw attention to note 1 to the consolidated financial statements, which describes the basis of preparation and presentation. The consolidated financial statements are prepared for the purpose of the preparation of a prospectus by the directors of the Company in connection with the initial public offering of shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited. As a result, the consolidated financial statements may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

### **Other matter**

We draw attention to the fact that the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the four months ended April 30, 2023 and any of the related notes have not been audited.

### **Responsibilities of the directors for the consolidated financial statements**

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with the basis of preparation and presentation set out in note 1 to the consolidated financial statements and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of the consolidated financial statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. The report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

**Independent auditor's report to the directors of T.S. Lines Limited (continued)**

*(Incorporated in Hong Kong with limited liability)*

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

*(Expressed in United States dollars unless otherwise indicated)*

### 1 BASIS OF PREPARATION AND PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

T.S. Lines Limited (the “Company”) is a private limited company incorporated in Hong Kong on March 2, 2001. Its registered office and principal place of business is at 9/F., C-Bons International Center, 108 Wai Yip Street, Kowloon, Hong Kong.

As at the date of this report, the directors consider the joint controlling parties of the Company to be Mr. Chen Teh-Sheng (together with its immediate family members) and General Sharafuddin Alsayed Mohd HSM Yousif Sharaf.

The principal activities of the Company are provision of container shipping services and investment holding. The Company and its subsidiaries (collectively as “the Group”) are principally engaged in provision of container shipping services.

The consolidated financial statements has been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”) which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”).

The consolidated financial statements also complies with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The accounting policies adopted and set out in note 2 have been applied consistently to all periods presented in the consolidated financial statements.

The HKICPA has issued certain new and revised HKFRSs. For the purpose of preparing and presenting the consolidated financial statements of the Group and the Company for the years ended December 31, 2021, 2022 and 2023 and the four months ended April 30, 2024 (the “Track Record Periods”), the Group and the Company has consistently applied all applicable HKFRSs throughout the Track Record Periods. The Company has not applied any new or revised standards or interpretations that are issued but not yet effective for the Track Record Periods, which are set out in note 27.

The consolidated financial statements for each of the Track Record Periods comprise the Company and its subsidiaries and the Group’s interests in associates. The measurement basis used in the preparation of consolidated financial statements is set out in note 2(a).

The audited statutory financial statements of the Company for the years ended December 31, 2021, 2022 and 2023 prepared in accordance with HKFRSs issued by the HKICPA were audited by KPMG.

These consolidated financial statements do not constitute the Company’s statutory annual financial statements for any of the financial years ended December 31, 2021, 2022 and 2023. Further information relating to these statutory financial statements disclosed in accordance with section 436 of the Hong Kong Companies Ordinance (Cap. 622) is as follows:

The Company’s auditors has reported on these financial statements for the years ended December 31, 2021, 2022 and 2023. The auditor’s reports were unqualified; did not include a reference to any matters to which the auditors drew attention by way of emphasis except that, an emphasis was made for the year ended December 31, 2021 on certain prior year adjustments made; and did not contain a statement under sections 406(2), 407(2) or (3) of the Hong Kong Companies Ordinance (Cap. 622).

As the Company was previously a private company, it is not required to deliver financial statements to the Registrar of Companies, and has not done so.

The financial statements of the subsidiaries of the Company for which there are statutory requirements were prepared in accordance with the relevant accounting rules and regulations applicable to entities in the countries and regions in which they were incorporated or established.

As at the date of this report, the Company has direct interests in the following subsidiaries, all of which are private companies:

## **2 MATERIAL ACCOUNTING POLICIES**

### **(a) Basis of measurement and use of estimates and judgment**

The measurement basis used in the preparation of the financial statements is the historical cost except that non-current assets classified as held for sales are stated at the lower of carrying amount and fair value less cost to sell (see note 2(t)).

The preparation of consolidated financial statements in conformity with HKFRSs requires management to make judgment, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgment about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgment made by management in the application of HKFRSs that have material effect on the financial statements and major sources of estimation uncertainty are discussed in note 3.

### **(b) Subsidiaries and non-controlling interests**

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealized profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealized losses resulting from intra-group transactions are eliminated in the same way as unrealized gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statements of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statements of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the reporting period between non-controlling interests and the equity shareholders of the Company. Loans from holders of non-controlling interests and other contractual obligations towards these holders are presented as financial liabilities in the consolidated statements of financial position in accordance with notes 2(l) or 2(m) depending on the nature of the liability.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognized.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognized in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognized at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statements of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2(g)), unless the investment is classified as held for sale (see note 2(t)).

**(c) Associates**

An associate is an entity in which the Group or the Company has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

An investment in an associate is accounted for in the consolidated financial statements under the equity method, unless it is classified as held for sale (or included in a disposal group that is classified as held for sale). Under the equity method, the investment is initially recorded at cost, adjusted for any excess of the Group's share of the acquisition-date fair values of the investee's identifiable net assets over the cost of the investment (if any). The cost of the investment includes purchase price, other costs directly attributable to the acquisition of the investment, and any direct investment into the associate that forms part of the Group's equity investment. Thereafter, the investment is adjusted for the post acquisition change in the Group's share of the investee's net assets and any impairment loss relating to the investment (see note 2(g)(ii)). At each reporting date, the Group assesses whether there is any objective evidence that the investment is impaired. Any acquisition-date excess over cost, the Group's share of the post-acquisition, post-tax results of the investees and any impairment losses for the reporting period are recognized in profit or loss, the Group's share of the post-acquisition post-tax items of the investees' other comprehensive income are recognized as other comprehensive income of the Group.

When the Group's share of losses exceeds its interest in the associate, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method, together with any other long-term interests that in substance form part of the Group's net investment in the associate, after applying the ECL model to such other long-term interests where applicable (see note 2(g)(i)).

Unrealized profits and losses resulting from transactions between the Group and its associates are eliminated to the extent of the Group's interest in the investee, except where unrealized losses provide evidence of an impairment of the asset transferred, in which case they are recognized immediately in profit or loss.

If an investment in an associate becomes an investment in a joint venture, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method.

In all other cases, when the Group ceases to have significant influence over an associate, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognized in profit or loss. Any interest retained in that former investee at the date when significant influence is lost is recognized at fair value and this amount is regarded as the fair value on initial recognition of a financial asset.

In the Company's statements of financial position, an investment in an associate is stated at cost less impairment losses (see note 2(g)), unless the investment is classified as held for sale (see note 2(t)).

**(d) Property, plant and equipment**

Property, plant and equipment (including right-of-use assets) are stated at cost less accumulated depreciation and impairment losses (see note 2(g)).

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognized in profit or loss on the date of retirement or disposal.

Depreciation is calculated on straight line basis to write off the cost of property, plant and equipment, less their estimated residual value, if any, over their estimated useful lives. The principal annual rates used for this purpose are as follows:

- Right-of-use assets	Over the unexpired lease terms
- Vessels	4% – 33%
- Containers	15% – 100%
- Leasehold improvements	Higher of 20% and over the unexpired lease terms
- Furniture and equipment	20% – 33.33%
- Motor vehicles	20%
- Buildings situated on freehold land	3.33%

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

**(e) Intangible assets**

Intangible assets that are acquired by the Group are stated at cost less accumulated amortization (where the estimated useful life is finite) and impairment losses (see note 2(g)).

Amortization of intangible assets with finite useful lives is charged to profit or loss on a straight-line basis over the assets' estimated useful lives. Software with finite useful lives are amortized from the date they are available for use and their estimated useful lives are 1 to 5 years.

Both the period and method of amortization are reviewed annually.

**(f) Leased assets as a lessee**

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

At the lease commencement date, the Group recognizes a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalize the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalized are recognized as an expense on a systematic basis over the lease term.

Where the lease is capitalized, the lease liability is initially recognized at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortized cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognized when a lease is capitalized is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see notes 2(d) and 2(g)(ii)).

The initial fair value of refundable rental deposits is accounted for separately from the right-of-use assets. Any difference between the initial fair value and the nominal value of the deposits is accounted for as additional lease payments made and is included in the cost of right-of-use assets.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

In the consolidated statements of financial position and the Company's statements of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

**(g) Credit losses and impairment of assets**

**(i) Credit losses from financial instruments**

The Group recognizes a loss allowance for expected credit losses (“ECLs”) on (i) financial assets measured at amortized cost (including cash and cash equivalents, trade receivables and other receivables which are held for the collection of contractual cash flows which represent solely payments of principal and interest) and (ii) contract assets as defined in HKFRS 15, *Revenues from contracts with customers*.

*Measurement of ECLs*

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The expected cash shortfalls are discounted using the following discount rates where the effect of discounting is material:

- fixed-rate financial assets, trade and other receivables and contract assets: effective interest rate determined at initial recognition or an approximation thereof;
- variable-rate financial assets: current effective interest rate.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

ECLs are measured on either of the following bases:

- 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments, the Group recognizes a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

*Significant increases in credit risk*

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realizing security (if any is held); or (ii) the financial asset is 90 days past due. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognized as an impairment gain or loss in profit or loss. The Group recognizes an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

#### *Basis of calculation of interest income*

Interest income recognized in accordance with note 2(q)(iv) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortized cost (i.e. the gross carrying amount less loss allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulties of the debtor;
- a breach of contract, such as a default or past due event;
- it becoming probable that the borrower will enter into bankruptcy or other financial reorganization; or
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor.

#### *Write-off policy*

The gross carrying amount of a financial asset or contract asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognized as a reversal of impairment in profit or loss in the period in which the recovery occurs.

**(ii) Impairment of other non-current assets**

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or an impairment loss previously recognized no longer exists or may have decreased:

- property, plant and equipment, including right-of-use assets;
- intangible assets; and
- investments in subsidiaries and associates in the Company's statements of financial position.

If any such indication exists, the asset's recoverable amount is estimated.

– *Calculation of recoverable amount*

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit). A portion of the carrying amount of a corporate asset is allocated to an individual cash-generating unit if the allocation can be done on a reasonable and consistent basis, or to the smallest group of cash-generating units if otherwise.

– *Recognition of impairment losses*

An impairment loss is recognized in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognized in respect of cash-generating units are allocated to reduce the carrying amount of the assets in the cash-generating unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

– *Reversals of impairment losses*

An impairment loss is reversed if there has been a favorable change in the estimates used to determine the recoverable amount. A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognized in prior reporting periods. Reversals of impairment losses are credited to profit or loss in the reporting period in which the reversals are recognized.

**(h) Bunkers**

Bunkers represent fuels for provision of shipping services and are stated at the lower of the cost and net realizable value. Cost is determined using first-in first-out basis. The carrying amount of bunkers is recognized in profit or loss upon consumption.

**(i) Trade and other receivables**

A receivable is recognized when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognized before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset (see note 2(j)).

Trade receivables are initially measured at their transaction price and subsequently stated at amortized cost, using the effective interest method and including an allowance for credit losses (see note 2(g)(i)).

**(j) Contract assets and contract liabilities**

A contract asset is recognized when the Group recognizes revenue (see note 2(q)) before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for expected ECLs in accordance with the policy set out in note 2(g)(i) and are reclassified to receivables when the right to the consideration has become unconditional (see note 2(i)).

A contract liability is recognized when the customer pays non-refundable consideration before the Group recognizes the related revenue (see note 2(q)). A contract liability would also be recognized if the Group has an unconditional right to receive non-refundable consideration before the Group recognizes the related revenue. In such cases, a corresponding receivable would also be recognized (see note 2(i)).

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

**(k) Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated cash flow statements. Cash and cash equivalents are assessed for ECLs in accordance with the policy set out in note 2(g)(i).

**(l) Trade and other payables**

Trade and other payables are initially recognized at fair value and subsequently stated at amortized cost unless the effect of discounting would be immaterial, in which case they are stated at invoice amounts.

**(m) Interest-bearing borrowings**

Interest-bearing borrowings are measured initially at fair value less transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortized cost using the effective interest method. Interest expense is recognized in accordance with the Group's accounting policy for borrowing costs (see note 2(s)).

**(n) Employee benefits**

***(i) Short term employee benefits and contributions to defined contribution retirement plans***

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the reporting period in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

The Group operates a Mandatory Provident Fund Scheme ("the MPF scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance and not previously covered by the defined benefit retirement plan. The MPF scheme is a defined contribution retirement plan administered by independent trustees. Under the MPF scheme, the employer and its employees are each required to make contributions to the plan at 5% of the employees' relevant income, subject to a cap of monthly relevant income of HK\$30,000. Contributions to the plan vest immediately, there is no forfeited contributions that may be used by the Group to reduce the existing level of contribution.

In July 2023, the HKICPA published "Accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong" that provides accounting guidance relating to the abolition of offsetting mechanism effective from 1 May 2025. The abolition of the offsetting mechanism did not have a material impact on the Group's results and financial position.

**(ii) Termination benefits**

Termination benefits are recognized at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognizes restructuring costs involving the payment of termination benefits.

**(o) Income tax**

Income tax expense comprises current tax and deferred tax. It is recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Current tax comprises the estimated tax payable or receivable on the taxable income or loss for the year/period and any adjustments to the tax payable or receivable in respect of previous years/periods. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects any uncertainty related to income taxes. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- temporary differences related to investment in subsidiaries and associates to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future;
- taxable temporary differences arising on the initial recognition of goodwill; and
- those related to the income taxes arising from tax laws enacted or substantively enacted to implement the Pillar Two model rules published by the Organisation for Economic Co-operation and Development.

The Group recognized deferred tax assets and deferred tax liabilities separately in relation to its lease liabilities and right-of-use assets.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognize a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Group. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred tax assets and liabilities are offset only if certain criteria are met.

**(p) Provisions, contingent liabilities and onerous contracts**

**(i) Provisions and contingent liabilities**

Provisions are recognized when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, a separate asset is recognized for any expected reimbursement that would be virtually certain. The amount recognized for the reimbursement is limited to the carrying amount of the provision.

**(ii) Onerous contracts**

An onerous contract exists when the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. Provisions for onerous contracts are measured at the present value of the lower of the expected cost of terminating the contract and the net cost of continuing with the contract.

**(q) Revenue and other income**

Income is classified by the Group as revenue when it arises from the provision of services in the ordinary course of the Group's business.

Revenue is recognized when control over a service is transferred to the customer at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Further details of the Group's revenue and other income recognition policies are as follows:

**(i) Container shipping services**

Revenue from container shipping services is recognized over time as the performance obligation is satisfied, including a share of revenue from incomplete voyages as at the end of the reporting period. Detention and demurrage fees are recognized over time until the timing of the customer's late return or pick-up of containers.

**(ii) Other container shipping related services**

Revenue from other container shipping related services is recognized over time upon the services have been rendered.

**(iii) Dividends**

Dividend income from unlisted investments is recognized when the shareholder's right to receive payment is established.

**(iv) Interest income**

Interest income is recognized as it accrues under the effective interest method using the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset, the effective interest rate is applied to the gross carrying amount of the asset. For credit-impaired financial assets, the effective interest rate is applied to the amortized cost (i.e. gross carrying amount net of loss allowance) of the asset (see note 2(g)(i)).

**(v) Rental income from containers and charter hire revenue – vessels**

Rental income from containers and charter hire revenue – vessels are recognized in equal instalments over the period covered by the contract period.

**(r) Translation of foreign currencies**

Foreign currency transactions during the reporting period are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognized in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the Group initially recognizes such non-monetary assets or liabilities.

The results of foreign operations are translated into United States dollars at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Statement of financial position items are translated into United States dollars at the closing foreign exchange rates at the end of the reporting period. The resulting exchange differences are recognized in other comprehensive income and accumulated separately in equity in the exchange reserve.

On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to profit or loss when the profit or loss on disposal is recognized.

**(s) Borrowing costs**

Borrowing costs that are directly attributable to the acquisition or construction of an asset which necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalization of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use. Capitalization of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use are interrupted or complete.

**(t) Non-current assets classified as held for sale**

A non-current asset is classified as held for sale if it is highly probable that its carrying amount will be recovered through a sale transaction rather than through continuing use and the asset is available for sale in its present condition.

Immediately before classification as held for sale, the measurement of the non-current assets is brought up-to-date in accordance with the accounting policies before the classification. Then, on initial classification as held for sale and until disposal, the non-current assets (except for certain assets as explained below) are recognized at the lower of their carrying amount and fair value less costs to sell. The principal exceptions to this measurement policy so far as the financial statements of the Group are concerned are deferred tax assets and financial assets (other than interests in associates). These assets, even if held for sale, would continue to be measured in accordance with the policies set out elsewhere in note 2.

Impairment losses on initial classification as held for sale, and on subsequent remeasurement while held for sale, are recognized in profit or loss. As long as a non-current asset is classified as held for sale, the non-current asset is not depreciated or amortized.

**(u) Related parties**

(a) A person, or a close member of that person's family, is related to the Group if that person:

- (i) has control or joint control over the Group;
- (ii) has significant influence over the Group; or
- (iii) is a member of the key management personnel of the Group or the Group's parent.

- (b) An entity is related to the Group if any of the following conditions applies:
- (i) The entity and the Group are members of the same Group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a Group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
  - (viii) The entity, or any member of a Group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

**(v) Segment reporting**

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

### **3 ACCOUNTING JUDGMENT AND ESTIMATES**

Note 23 contains information about the assumptions and their risk factors relating to financial instruments. Other significant source of estimation uncertainty are as follows:

**(a) Estimated useful lives of vessels**

Shipping vessels are depreciated on the straight-line basis over their estimated remaining useful lives, after considering estimated residual values. Significant judgment and estimate are required in determining the useful life of a vessel.

In determining the useful lives of the Group's vessels, the Group considers its business model and asset management policy, the industry practice, and factors like expected usage of each shipping vessel, expected repair and maintenance, and technical or commercial obsolescence arising from changes or improvements in the shipping vessel market. In respect of capitalized drydocking costs included in the cost of shipping vessels, the Group estimates the useful lives of these costs with reference to the expected periods between drydocking cycles of vessels until their next drydocking.

The depreciation charge in future periods will change where the estimated useful life or residual value of a shipping vessel is different from the previous estimate.

**(b) Revenue recognition**

The Group's revenue arising from provision of shipping container and related services is recognized over time based on the percentage-of-completion of voyage. The method is based on historical trend, and the uncertainty of voyage days will lead to uncertainty in estimation of revenue.

(c) **Impairment of right-of-use assets and property, plant and equipment**

Internal and external sources of information are reviewed at the end of each reporting period to assess whether there is any indication that right-of-use assets and property, plant and equipment may be impaired. If any such indication exists, the recoverable amount of the right-of-use assets and property, plant and equipment is estimated. Changes in facts and circumstances may result in revisions to the conclusion of whether an indication of impairment exists and revised estimates of recoverable amounts, which would affect profit or loss in future periods.

**4 REVENUE AND SEGMENT REPORTING**

(a) **Revenue**

The principal activities of the Group are provisions of container shipping and related services. Further details regarding the principal activities of each entity comprising the Group are disclosed in note 1.

(i) **Disaggregation of revenue**

Disaggregation of revenue from contracts with customers by major service lines is as follows:

	Year ended December 31,			Four months ended April 30,	
	2021	2022	2023	2023	2024
	US\$'000	US\$'000	US\$'000	US\$'000	US\$'000

All of the above revenue are recognized over time.

Disaggregation of revenue from contracts with customers by the geographic markets is disclosed in note 4(b).

The Group's customer base is diversified and there are no customers with whom transactions have exceeded 10% of the Group's revenue for the years ended December 31, 2021, 2022 and 2023 and four months ended April 30, 2023 and 2024.

(b) **Segment reporting**

The segment's operating results are reviewed regularly by the entity's chief operating decision maker to make decisions pertaining to the allocation of the resources of the segment and to assess its performance for which the discrete financial information is available. Only one reportable segment of the Group was identified, and it is mainly associated with the provision of container shipping and related services.

**Geographic information**

The Group's non-current assets are primarily dominated by its vessels. The directors of the Company consider that the nature of the Group's business and the way in which costs are allocated preclude a meaningful allocation of vessels, their operating profits and related capital expenditure to specific geographical areas as defined under HKFRS 8, *Operating Segments* issued by the HKICPA. These vessels are primarily utilized across different geographical markets for shipment. Accordingly, geographical information is only presented for revenue from external customers.

The revenue information by geographical area based on the location of shipping agents handling the shipments is as follows:

	Year ended December 31,			Four months ended April 30,	
	2021	2022	2023	2023	2024
	US\$'000	US\$'000	US\$'000	US\$'000 (Unaudited)	US\$'000

The analysis of the net book value of right-of-use assets by class of underlying assets is as follows:

Note	At December 31,			At April 30,
	2021	2022	2023	2024
	US\$'000	US\$'000	US\$'000	US\$'000
Ownership interests in leasehold land and buildings held for own use, with remaining lease term of between 10 and 50 years	(i) 6,130	5,903	5,221	5,068

Containers	(iii) 151,277	178,679	151,198	145,054
	345,062	381,910	215,498	187,787

During the years ended December 31, 2021, 2022 and 2023 and four months ended April 30, 2024, the Company's additions to right-of-use assets were US\$388,497,000, US\$210,240,000, US\$Nil and US\$5,722,000, respectively. These amounts mainly related to the capitalized lease payments payable under new lease agreements relating to vessels and containers.

**(i) Ownership interests in leasehold land and buildings held for own use**

The Group and the Company have property interests in buildings for office use. Lump sum payments were made upfront to acquire these property interests from their previous registered owners, and there are no ongoing payments to be made under the terms of the land lease, other than payments based on rateable values set by the relevant government authorities. These payments vary from time to time and are payable to the relevant government authorities.

**(ii) Properties leased for own use**

The Group has obtained the right to use certain properties as its offices through tenancy agreements. The leases typically run for an initial period of 1 to 5 years and does not include variable lease payments.

The leases which the Group entered into do not include an option to renew the lease. All of the leases are re-negotiated upon expiration.

**(iii) Vessels and containers**

The Group and the Company lease certain vessels and containers under leases expiring from 1 to 10 years. Some leases include an option to renew the leases for an additional period after the end of the contract term. Where practicable, the Group and the Company seek to include such extension options exercisable by the Group and the Company. For those lease that are not reasonably certain to exercise the extension options, the future lease payables during the extension periods are not included in the measurement of lease liabilities.

**(c) Impairment assessment**

As at December 31, 2023, management of the Group assessed and identified there was an indication of impairment of property, plant and equipment, with a consideration of gross loss results. The recoverable amounts of the property, plant and equipment including vessels and containers had been determined based on value in use calculations, using discounted cash flow method. Based on the result of the assessments, the directors of the Group concluded that the recoverable amounts of the property, plant and equipment were higher than their carrying amounts and no impairment was recognized as at December 31, 2023.

TEH Shipping Lines Co., Ltd. (previously known as T.S. Lines Co., Ltd.) (Note)	Taiwan	NTD300,000,000	44%	Nil	Nil	Nil	Provision of container shipping and management services

*Note:* During the year ended December 31, 2022, the Group disposed of its equity interest in TEH Shipping Lines Co. Ltd., an associate, at cash consideration of NTD672,192,668 (equivalent to US\$22,602,000) to Mr. Chen Teh-Sheng, a controlling shareholder and director of the Company. The net assets attributable to the Group immediately before this disposal amounted to US\$22,602,000. In addition, exchange reserve of US\$1,473,000 was reclassified to profit or loss and included in "other net loss". Upon the completion of this disposal, the Group ceased to hold any interest in TEH Shipping Lines Co., Ltd..

All of the above associates are accounted for using the equity method in the consolidated financial statements and are not individually material, while the investments in associates in the Company's statements of financial position are stated at cost less any accumulated impairment losses.

### Summary financial information on associates

Aggregate information of associates that are not individually material is disclosed below:

#### *The Group*

	At December 31,			At April 30,
	2021	2022	2023	2024
	US\$'000	US\$'000	US\$'000	US\$'000

	Year ended December 31,			Four months ended April 30,	
	2021	2022	2023	2023	2024
	US\$'000	US\$'000	US\$'000	US\$'000 (Unaudited)	US\$'000
Aggregate amounts of the Group's share of these associates'					
– Profits less losses from operations	19,320	8,888	995	74	421
– Other comprehensive income	(558)	–	(32)	65	(50)
Total comprehensive income	<u>18,762</u>	<u>8,888</u>	<u>963</u>	<u>139</u>	<u>371</u>

The Group discontinues to recognise further losses on certain associates when the Group's share of losses exceed its interests in these associates. As at December 31, 2021, 2022 and 2023 and April 30, 2024, the Group has not recognized losses totalling US\$217,000, US\$246,000, US\$246,000 and US\$Nil respectively. Among these unrecognized losses, US\$113,000, US\$29,000, US\$Nil and US\$Nil were related to the years ended December 31, 2021, 2022 and 2023 and four months ended April 30, 2024, respectively.

## 15 NON-CURRENT ASSETS CLASSIFIED AS HELD FOR SALE

During the year ended December 31, 2022, the Group committed to a plan to sell certain vessels including related furniture and equipment. In the opinion of the directors, the disposals of these vessels were expected to be completed within twelve months from the end of the reporting period.

As a result, these vessels together with certain furniture and equipment with aggregate carrying amount of US\$132,137,000 had been classified as non-current assets classified as held for sale at December 31, 2022. Impairment loss of US\$6,105,000 had been recognized prior to this classification as the carrying amounts of certain vessels were lower than the respective fair value less cost to sell.

During the year ended December 31, 2023, these assets were disposed of at aggregate cash considerations of US\$157,297,000, and therefore a gain on disposals of US\$25,160,000 was recognized in profit or loss and included in "other net income".

(d) Nature and purpose of reserve

*Exchange reserve*

The exchange reserve comprises all foreign exchange differences arising from the translation of the financial statements of operations with functional currencies other than US\$. The reserve is dealt with in accordance with the accounting policies set out in note 2(r).

**(e) Capital management**

The Group's and the Company's primary objective when managing capital is to safeguard the Group's and the Company's ability to continue as a going concern, so that the Group and the Company can continue to provide returns for shareholders and benefits for other stakeholders, by pricing services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group and the Company's actively and regularly review and manage its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

**23 FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS**

Exposure to credit, liquidity, interest rate and currency risks arises in the normal course of the Group's business.

The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

**(a) Credit risk**

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group's credit risk is primarily attributable to trade receivables and contract assets. The Group's exposure to credit risk arising from cash and cash equivalents is limited because the counterparties are banks and financial institutions with sound credit ratings, for which the Group considers to have low credit risk.

***Trade receivables and contract assets***

The Group has a vast customer base that is not connected. Thus, the ability to concentrate the credit risk is limited.

The Group measures loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

The following table provides information about the Group's exposure to credit risk and ECLs for trade receivables and contract assets:

At December 31, 2021			
	Expected loss rate	Gross carrying amount	Loss allowance
		US\$'000	US\$'000
Current (not past due)	—*	211,975	—

More than 60 days past due	0.35%	575	2
		65,704	2

At April 30, 2024			
	Expected loss rate	Gross carrying amount	Loss allowance
		US\$'000	US\$'000
Current (not past due)	—*	89,118	—
1 to 30 days past due	—*	600	—
31 to 60 days past due	—*	2	—
More than 60 days past due	0.34%	2,387	8
		92,107	8

Expected loss rates are based on loss experience in the past and available financial information. These rates are adjusted to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables and contract assets.

- \* The Group has assessed the expected credit loss rate for the trade receivables and contract assets in these categories. However, in view of the overall low historical default rates and immaterial forward-looking adjustment, the expected credit losses for these categories of trade receivables and contract assets are insignificant that they are rounded down to nil in thousand dollars scale.

#### (b) Liquidity risk

The Group's policy is to regularly monitor its liquidity requirements, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

The following tables show the remaining contractual maturities of the Group's financial liabilities as at December 31, 2021, 2022 and 2023 and April 30, 2024, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at respective dates) and the earliest date the Group can be required to pay.

(c) **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest rate risk arises primarily from bank borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk. The Group's interest rate profile as monitored by management is set out in (i) below.

(i) **Interest rate profile**

The following table details the interest rate profile of the Group's borrowings at December 31, 2021, 2022 and 2023 and April 30, 2024:

	At December 31,						At April 30,	
	2021		2022		2023		2024	
	Effective interest rate %	US\$'000	Effective interest rate %	US\$'000	Effective interest rate %	US\$'000	Effective interest rate %	US\$'000
<b>Fixed rate borrowings:</b>

Lease liabilities	2.07%	350,166	6.525%	388,645	6.525%	217,209	6.525%	188,652
<b>Variable rate borrowings:</b>								
	1.07% –							
Bank borrowings	1.33%	191,787	N/A	–	N/A	–	N/A	–
<b>Total borrowings</b>		<u>541,953</u>		<u>388,645</u>		<u>217,209</u>		<u>188,652</u>

(ii) **Sensitivity analysis**

At December 31, 2021, 2022 and 2023 and April 30, 2024, it is estimated that a general increase/decrease of 50 basis points in interest rates, with all other variables held constant, would have decreased/increased the Group's profit after taxation and retained profits by approximately US\$959,000, US\$Nil, US\$Nil and US\$Nil respectively.

The sensitivity analysis above indicates the instantaneous change in the Group's profit after taxation and retained profits that would arise assuming that the change in interest rates had occurred at the end of each of the Track Record Periods. In respect of the exposure to cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the end of each of the Track Record Periods, the impact on the Group's profit after taxation is estimated as an annualized impact on interest expense of such a change in interest rates.

**(d) Currency risk**

The Group is exposed to currency risk primarily through sales and purchases which give rise to receivables, payables and cash balances that are denominated in a foreign currency, i.e. a currency other than the functional currency of the operations to which the transactions relate. The currencies giving rise to this risk are primarily Renminbi ("RMB"), Japanese Yen ("JPY"), United States dollars ("USD") and New Taiwan dollars (NTD).

**(i) Exposure to currency risk**

The following table details the Group's exposure at the end of each of the Track Record Periods to currency risk arising from recognized assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate. For presentation purpose, the amounts of the exposure are shown in United States dollars, translated using the spot rate at the end of each of the Track Record Periods.

(ii) **Sensitivity analysis**

The following table indicates the instantaneous change in the Group's profit after taxation that would arise if foreign exchange rates to which the entity has significant exposure at the end of each of the Track Record Periods had changed at that date, assuming all other risk variables remained constant.

	At December 31, 2021		At December 31, 2022		At December 31, 2023		At April 30, 2024

	(5%)	(956)	(5%)	(207)	(5%)	(200)	(5%)	—

Results of the analysis as presented in the above table represent an aggregation of the instantaneous effects on each of the Group entities' profit after taxation and retained profits in the respective functional currencies, translated into United States dollars at the exchange rate ruling at each of the end of the Track Record Periods for presentation purposes.

The sensitivity analysis assumes that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group which expose the Group to foreign currency risk at the end of each of the Track Record Periods. The analysis excludes differences that would result from the translation of the financial statements of foreign operations into the Group's presentation currency.

(e) **Fair values**

The carrying amounts of the Group's financial instruments carried at amortized cost were not materially different from their fair values as at December 31, 2021, 2022 and 2023 and April 30, 2024.

## 27 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE DURING THE TRACK RECORD PERIODS

Up to the date of issue of this consolidated financial statements, the HKICPA has issued a number of new or revised standards, which are not yet effective during the Track Record Periods and which have not been adopted in the consolidated financial statements. These developments include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
Amendments to HKAS 21, <i>The effects of changes in foreign exchange rates:</i> <i>Lack of exchangeability</i>	1 January 2025
HKFRS 18, <i>Presentation and Disclosure in Financial Statements</i>	1 January 2027
Amendments to HKFRS 10 and HKAS 28, <i>Sale or contribution of assets between an investor and its associate or joint venture</i>	To be determined

The Group is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact to the Group.
