III. OPINION

Based upon the foregoing, and subject to the qualifications set out below and any matters not disclosed to us, it is our opinion that:

A. Due Incorporation and Corporate Information

1. Continental was duly established on July 5th, 2007, and is in good standing, valid and existing under the laws of Colombia.
2. Continental is a branch of Continental Gold Limited ("**CGL**", a Bermudan company) and has its registered office at Carrera 43A #1-50 Of 1052 and 1152, Medellín, Colombia. It can sue and be sued in its own name and is not entitled to immunity under the laws of Colombia.
3. Continental's establishment is not in breach or violation of any laws or regulations of Colombia.
4. Continental has the requisite corporate and legal capacity to own, use, lease or operate its properties and assets and carry on its current business under the laws of Colombia and its establishment documents, and there are no restrictions under Continental's establishment documents affecting such ability, power and capacity.
5. Since the establishment of Continental and thereafter up to the date of the Opinion, the legal representatives of Continental (including all changes within such period) are as listed in **Schedule 5**, and they had or have been appointed in accordance with applicable laws and Continental's establishment documents.
6. Continental has full power and authority under the laws of Colombia and its establishment documents to declare and effect profit distributions in or out of Colombia:

LLORED A · CAMACHO & CO

- (i) freely in any foreign currencies,
 - (ii) without any withholding or other taxation except for those set out in **Section 58**,
 - (iii) freely transferable out of Colombia, and
 - (iv) without being subject to any restrictions, except as provided in **Section 7**, and without the necessity of obtaining any governmental approvals or permits.
7. The following restrictions (including any requirement for any approval, license or filing) apply to the repatriation of profits of, or foreign exchange controls affecting, Continental:
- (i) Profits must be based on fully audited end-of-year financial statements.
 - (ii) Continental's assigned capital must be paid through the Colombian foreign exchange market (i.e., through a foreign exchange market intermediary or channeled via a compensation account).
 - (iii) Continental must file a foreign exchange declaration for international investments with the Central Bank, either through its foreign exchange market intermediary (a Colombian bank) or directly if it holds a compensation account.
8. Continental's establishment documents stipulate no limitations or restrictions in respect of Continental's ability to incur debt or provide security (including with respect to the amount of borrowings).

B. Mining Operations

9. Continental has obtained all necessary approvals for the mining activities conducted by Continental from the government and relevant authorities.
10. All mining concession agreements are currently valid. A list of such mining concession agreements is included in **Schedule 10**. There are no legal impediments in relation to the renewal of such mining concession agreements which may have a material adverse impact on the business operations and/or financial performance of Continental.
11. All exploration and exploitation rights owned by Continental under the mining concession agreements included in **Schedule 10** (the "**E&E Rights**") are true, legal, and valid without limitations or restrictions. Subject only to the pledges which are granted by Continental in its ordinary course of business and do not have any material adverse impact on the business operations and/or financial performance of

LLORED A · CAMACHO & CO

Continental, provided that Continental continues to perform its obligations under the agreements that such pledges are endorsing so that the pledges are not enforced, such E&E Rights are exclusively enjoyed by Continental, are in good standing, and no factor affects the validity of the rights or results in or may result in real or potential dispute.

12. With respect to all E&E Rights which have been acquired by Continental, the relevant acquisition agreements are (i) duly authorized, executed and enforceable in accordance with the laws of Colombia; and (ii) the acquisitions do not violate any applicable laws, regulations and constitution of the transferor and transferee.
13. So far as we are aware, there are no investigations pending against Continental for non-compliance with the authorized production volume under the work plans in connection with the relevant mining concession agreements.
14. Continental's mining activities at its mines materially comply with the relevant environmental laws and all other relevant regulations. Under the environmental licenses held by Continental, there are rehabilitation and compensation requirements, and there is no non-compliance by Continental.
15. There are no material risks related to community disputes or environmental liabilities.
16. Continental's material agreements related to mining operations as described in **Schedule 38** are legally valid, binding, and enforceable.
17. To our knowledge, Continental is subject to risks relating to informal miners who have been illegally extracting gold from within its concession. Continental is entitled to claim against the relevant Colombian government or authority over any lack of security guarantees for its operations in the country or other legitimate grounds.

C. Legal Compliance – Licenses and Permits

18. Continental has obtained all necessary licenses, consents, authorizations, permissions, declarations, approvals, orders, registrations, clearances, certificates, permits, reports (the "**Government Authorizations**") to and filings with government agencies or body or any other regulator (the "**Authority**") in Colombia for it to own, lease, license and use properties (including any planning, building, construction and occupation permits and approvals) and assets, and to conduct its current business in so far as such properties

LLORED A · CAMACHO & CO

and assets and the conduct of such businesses are governed by the laws of Colombia. The information of such Government Authorizations is set out in **Schedule 18**.

19. The Government Authorizations are in full force and effect and contain no material restrictions or conditions. There are no legal impediments to their renewal, and Continental has not received any notice of any proceedings relating to the revocation, suspension, withdrawal, cancellation, or modification of any such Government Authorizations.
20. So far as we are aware, all necessary corporate filings have been made on a timely basis in Colombia since Continental's establishment and thereafter up to the date of the Opinion; no other filing, recording, or registration with any Authority in Colombia has not been effected in connection with Continental's operation.
21. Continental complies in all material respects with all applicable laws of Colombia.

D. Insolvency and Litigation

22. Based on available searches with the relevant courts (or other applicable body) evidenced in **Schedule 22** (the "**Relevant Searches**"), there is no order, writ of summons, petition or shareholders' resolution filed or passed for the dissolution or liquidation of Continental or appointment of a receiver, administrator or liquidator in connection with the winding-up, dissolution, liquidation procedures of Continental or its assets.
23. Based on the Relevant Searches, there are no litigation, bankruptcy, winding-up, prosecution, arbitral or disciplinary proceedings involving Continental or its legal representatives or senior management which may have a material adverse impact on the business operations and/or financial performance of Continental.

29. To the best of our knowledge, all tax waivers, relief, concession and preferential treatment granted to Continental in Colombia are valid, binding and enforceable.

- 39. Each Material Contract has been duly authorized, executed, and delivered by Continental. With respect to each Material Contract governed by the laws of Colombia, it is legally valid, binding and enforceable, does not require any Government Authorization in respect of its execution, delivery or performance, and does not contravene any applicable laws and regulations in Colombia. With respect to each Material Contract not governed by the laws of Colombia, there is no indication that it is invalid, non-binding or unenforceable.
- 40. Continental is not known to have (a) been in default of any of its material obligations under the Material Contracts or (b) received any notice from any counterparties relating to any breach or default of the Material Contracts.

K. Insurance

- 47. Continental is required to maintain insurance policies for its business and has duly maintained them according to Colombian laws.

L. Compliance

- 48. Continental has complied with applicable anti-money laundering laws, anti-corruption and anti-bribery laws in Colombia in all material respects since establishment and thereafter up to the date of the Opinion. There is no public record or indication suggesting that Continental has violated or is currently exposed to enforcement action under OFAC sanctions or any other international sanction frameworks.

M. Entrustment Operations Agreement and Return Swap Agreement

With respect to the business trusteeship agreement dated June 24, 2025, entered into by and between Continental and Gold Excellence Holdings Company Limited (the "**Entrustment Operations Agreement**") and the return swap agreement dated June 24, 2025, entered into by and between Gold Mountains (H.K.) International Mining Company Limited and Gold Excellence Holdings Company Limited (the "**Return Swap Agreement**"):

- 49. the arrangement as a whole is not in contravention of any legal or regulatory restrictions pursuant to Colombian laws and regulations, and there is no law or decision of Colombian courts explicitly invalidating such an arrangement or similar arrangements;

LLOREDA·CAMACHO & CO

50. the arrangement does not require any notifications, registrations, filings, authorizations or approvals from the Colombian government or regulatory authorities;
51. the entry into such arrangement would not constitute a change of control of Continental under Colombian laws, and therefore would not trigger any notification or filing obligations or any need of approvals or reviews by the Colombian government or regulatory authorities;
52. the arrangement is consistent with the establishment documents of Continental;
53. the Entrustment Operations Agreement has been duly executed by Continental and is valid and enforceable in Colombia and against Continental if they were enforced in a Colombian court. With respect to the Return Swap Agreement, there is no indication that it is invalid, non-binding or unenforceable;
54. the implementation of the arrangement would not affect the validity of the licenses and qualifications or the mining rights which are relevant to the operations of Continental;
55. the entry into the Entrustment Operations Agreement and/or the Return Swap Agreement would not require any notification, filings or approvals from the Colombian governmental or regulatory authorities;
56. entering into the Return Swap Agreement would not give rise to any tax implications in Colombia, while entering into the Entrustment Operations Agreement may give rise to the following tax implications in Colombia:
 - a. considering that the value of the Entrustment Operations Agreement exceeds 6,000 UVT (COP 298,784,000 for 2025; approximately USD 70,000), it will be subject to the National Stamp Tax at a rate of 1%. Such National Stamp Tax is not applicable to the Return Swap Agreement, as this contract does not correspond to a sale or the provision of a service, nor does it create or modify obligations within Colombian territory;
 - b. with respect to the Entrustment Operations Agreement, the provision of services in the Colombian territory is considered Colombian-source income. Accordingly, such income is subject to income tax in Colombia and the payer must apply withholding tax for income tax purposes, in accordance with the applicable rate based on the classification of the service (generally 20%); and

LLORED A · CAMACHO & CO

- c. regarding the Entrustment Operations Agreement, the provision of services in Colombia also triggers the value-added tax at the general rate of 19% and Industry and Commerce Tax (ICA for its acronym in Spanish), levied by the municipality where the service is performed. The applicable ICA rate depends on the activity's classification;
- 57. under Colombian laws and regulations, Colombian governmental and regulatory authorities have no power to invalidate the Entrustment Operations Agreement and/or the Return Swap Agreement;
- 58. Continental is not restricted from making profit distribution to its parent entity, under the Colombian law and/or the establishment documents of Continental and Continental is not subject to any maximum amount of distribution of profits which it may declare. The transfer of profits attributed to a foreign entity's branch in Colombia to its related companies abroad is permitted and will be subject to the tax rules applicable to dividend distribution. Pursuant to Article 245 of the Colombian Tax Code, distributions of dividends to foreign entities will be taxed as follows:
 - a. if Continentals' profits have already been taxed at the standard 35% corporate income tax, the dividend distributed to its parent entity will be subject to a 20% withholding tax;
 - b. if Continentals' profits have not been taxed at the corporate level, the dividend distributed to its parent entity will be subject to the 35% corporate income tax, and a 20% withholding tax shall also be applicable on the remaining 65% of such dividend.
- 59. A dividend policy would need to be formally established by Continental such that dividends can be declared.
- 60. The recipients of dividend payment/distribution are not restricted from further transferring the distribution as per the Return Swap Agreement, under Colombian law and/or Continental's establishment documents.

N. Relevant Sections of the Prospectus

- 61. The statements in relation to Continental and the Colombian laws as set out in the prospectus dated September 19, 2025 in connection with the Proposed Listing (the "**Prospectus**") are true, accurate, complete and not misleading.

Schedule 28

Based on the information included in the independent tax opinion issued by Martínez Quintero Mendoza González Laguado & De La Rosa on June 23, 2025 to Continental (the "**Tax Opinion**"), the Colombian tax authority (DIAN) initiated a tax audit against Continental in connection with the income tax return filing requirements in respect of an indirect transfer of ownership thereof to 2727957 Ontario Inc. (the "**Indirect Transfer**").

As stated in the Tax Opinion:

- Pursuant to Articles 90-3 and 326 of the Colombian Tax Code ("**CTC**"), the indirect transferor involved in a taxable indirect transfer is required to file a tax return in Colombia within the month following the date of the indirect transfer.
- However, for the transfer of shares listed on a recognized stock exchange, only the indirect transferors which concentrate the same ultimate beneficial owner with more than 20% of the listed shares must file a tax return in Colombia.
- Through Official Tax Opinion No. 448 of 2019, the Colombian tax authority confirmed that there is no obligation to file an income tax return when the exception established under Paragraph 1 of Article 90-3 of the CTC applies.
- According to the documents reviewed for the purposes of the Tax Opinion, there are no shares concentrated in a single ultimate beneficial owner by more than 20%. Based on the foregoing, the Tax Opinion concludes that (1) the Indirect Transfer should not be subject to tax in Colombia for any of the indirect transferors as per paragraph 1 of Article 90-3 of the CTC and (2) the probability of any outflow resulting from any allegation to the contrary is remote.
