Independent auditor's report
To the shareholders of Shanghai FourSemi Semiconductor Co., Ltd.
(Incorporated in the People's Republic of China with limited liability)

Opinion

We have audited the consolidated financial statements of Shanghai FourSemi Semiconductor Co., Ltd. (the "Company") and its subsidiaries (the "Group") set out on pages 3 to 83, which comprise the consolidated and company statements of financial position as at 31 December 2022, 2023 and 2024 and 31 October 2025, and the consolidated statements of profit or loss, statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the years ended 31 December 2022, 2023 and 2024, and the ten months ended 31 October 2025 (the "Relevant Periods"), and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2022, 2023 and 2024 and 31 October 2025 and of the Group's consolidated financial performance and its consolidated cash flows for each of the Relevant Periods in accordance with the basis of preparation set out in note 2.1 to the consolidated financial statements.

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") as issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other matter

Without modifying our opinion, we draw attention to the fact that the financial information for the ten months ended 31 October 2024 (the "Interim Comparative Information") is unaudited.

Responsibilities of the directors for the consolidated financial statements

The directors of the Company are responsible for the preparation of the consolidated financial statements, which also include the Interim Comparative Information, that give a true and fair view in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements for the Relevant Periods as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent auditor's report (continued)
To the shareholders of Shanghai FourSemi Semiconductor Co., Ltd.
(Incorporated in the People's Republic of China with limited liability)

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the board of directors of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Restriction on distribution and use

These consolidated financial statements are prepared for the purpose of preparation of financial information for inclusion in the prospectus of the Company in connection with the listing of the shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited and accordingly may not be suitable for another purpose.

Our report is intended solely for the information and use by the directors of the Company and should not be distributed to or used by parties other than the Company.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. CORPORATE AND GROUP INFORMATION

Shanghai FourSemi Semiconductor Co., Ltd. (the "Company"), formerly named as Xiamen FourSemi Semiconductor Co., Ltd., was established in the People's Republic of China ("PRC") with limited liability on 17 May 2016 and was converted into a joint stock company on 12 June 2025. The registered office of the Company is located at Room 303, Building 4, Second Street, Gangcheng Square, No. 88 Yunjuan Road, Lane 11, Linggang Special Area, China (Shanghai) Pilot Free Trade Pilot Zone, PRC.

During the Relevant Periods, the Company and its subsidiaries (collectively, the "Group") were principally engaged in the design, research and development, and sale of perceptual-intelligence chips focusing on power amplifier audio and haptic driver.

As at the end of the Relevant Periods, the Company had direct interests in its subsidiaries, all of which are private limited liability companies. The particulars of the major subsidiaries are set out below:

Name	Place and date of incorporation/ registration and operations	Nominal value of issued ordinary/ registered share capital ('000)	Percentage of equity attributable to the Company Direct %	Principal activities
Fourier Technology Limited 傅里叶科技有限公司	Hong Kong 18 November 2016	HK\$10	100	Sale of integrated circuit chips
Shanghai FourSemi Electronics Technology Company Limited 上海傅硅电子科技有限公司	PRC/Chinese mainland/ 17 June 2016	RMB50	100	Research and development, design and sale of integrated circuit chips
Shenzhen FourSemi Electronics Company Limited 深圳市傅里叶电子有限公司	PRC/Chinese mainland/ 20 July 2022	RMB10,000	100	Sale of integrated circuit chips

The English names of group companies registered in the PRC represent the best efforts made by the management of the Company to translate the Chinese names of these companies as they do not have official English names.

No audited financial statements have been prepared for these entities for the years ended 31 December 2022, 2023 and 2024 as these entities were not subject to any statutory audit requirements under the relevant rules and regulations.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.1 BASIS OF PREPARATION

For ordinary shares issued to certain pre-IPO investors, pursuant to the supplemental agreements entered into between the Company and such pre-IPO investors in relation to the termination of redemption rights granted by the Company, which are void ab initio as described in note 28 to this report, having taking into account the legal and regulatory framework of the Company's jurisdiction and the governing law of the supplementary agreements, the directors considered that it is appropriate to present such pre-IPO investments as equity throughout the Relevant Periods. For the details of financial impacts, see note 28 to the financial statements.

The financial statements are prepared for the purpose of preparation of financial information for inclusion in the prospectus of the Company in connection with the listing of the shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited. They have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (the "IASB"), which comprise all standards and interpretations approved by the IASB. All IFRS Accounting Standards effective for the accounting period commencing from 1 January 2025, together with the relevant transitional provisions, have been early adopted by the Group throughout the Relevant Periods and in the period covered by the Interim Comparative Information.

These financial statements have been prepared under the historical cost convention, except for certain financial instruments which have been measured at fair value.

Basis of consolidation

The consolidated financial statements include the financial statements of the Group for the Relevant Periods and in the period covered by the Interim Comparative Information. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Generally, there is a presumption that a majority of voting rights results in control. When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, any non-controlling interest and the exchange fluctuation reserve; and recognises the fair value of any investment retained and any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.2 ISSUED BUT NOT YET EFFECTIVE IFRS ACCOUNTING STANDARDS

The Group has not applied the following new and amended IFRS Accounting Standards, that have been issued but are not yet effective, in these financial statements. The Group intends to apply these new and amended IFRS Accounting Standards, if applicable, when they become effective.

IFRS 18	<i>Presentation and Disclosure in Financial Statements</i> ²
IFRS 19 and its amendments	<i>Subsidiaries without Public Accountability: Disclosures</i> ²
Amendments to IFRS 9 and IFRS 7	<i>Amendments to the Classification and Measurement of Financial Instruments</i> ¹
Amendments to IFRS 9 and IFRS 7	<i>Contracts Referencing Nature-dependent Electricity</i> ¹
Amendments to IFRS 10 and IAS 28	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i> ³
Amendments to IAS 21	<i>Translation to a Hyperinflationary Presentation Currency</i> ²
<i>Annual Improvements to IFRS Accounting Standards - Volume 11</i>	<i>Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS10 and IAS 7</i> ¹

¹ Effective for annual periods beginning on or after 1 January 2026

² Effective for annual/reporting periods beginning on or after 1 January 2027

³ No mandatory effective date yet determined but available for adoption

The Group is in the process of making an assessment of the impact of these new and amended IFRS Accounting Standards upon initial application. Further information about those IFRS Accounting Standards that are expected to be applicable to the Group is described below.

IFRS 18 replaces IAS 1 *Presentation of Financial Statements*. While a number of sections have been brought forward from IAS 1 with limited changes, IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Entities are required to classify all income and expenses within the statement of profit or loss into one of the five categories: operating, investing, financing, income taxes and discontinued operations and to present two new defined subtotals. It also requires disclosures about management-defined performance measures in a single note and introduces enhanced requirements on the grouping (aggregation and disaggregation) and the location of information in both the primary financial statements and the notes. Some requirements previously included in IAS 1 are moved to IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*, which is renamed as IAS 8 *Basis of Preparation of Financial Statements*. As a consequence of the issuance of IFRS 18, limited, but widely applicable, amendments are made to IAS 7 *Statement of Cash Flows*, IAS 33 *Earnings per Share* and IAS 34 *Interim Financial Reporting*. In addition, there are minor consequential amendments to other IFRS Accounting Standards. IFRS 18 and the consequential amendments to other IFRS Accounting Standards are effective for annual periods beginning on or after 1 January 2027 with earlier application permitted. Retrospective application is required. Based on a preliminary assessment, the adoption of IFRS 18 is not expected to have any impact on the Group's results of operations and financial position but has impact on the presentation and disclosure of the Group's financial statements.

The Group has already commenced an assessment of the impact of other new and amended IFRS Accounting Standards, which are relevant to the Group's operations. According to the preliminary assessment made by the directors, no significant impact on the financial performance and financial position of the Group is expected when these new and amended IFRS Accounting Standards become effective.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES

Fair value measurement

The Group measures its structured deposits at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, deferred tax assets and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash-generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES

Impairment of non-financial assets (continued)

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;
- or
- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group; and the sponsoring employers of the post-employment benefit plan;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Machinery	19%
Office equipment and electronic devices	32%
Leasehold improvements	33%
Vehicles	24%

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Property, plant and equipment and depreciation (continued)

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress is stated at cost less any impairment losses, and is not depreciated. It is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

Software

Purchased software is stated at cost less any impairment losses and is amortised on the straight-line basis over its estimated useful life of 10 years, which is mainly determined by reference to the licensed period of the purchased software.

Research and development costs

All research costs are charged to the statement of profit or loss as incurred.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Buildings	3 to 6 years
-----------	--------------

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of plant and properties and electronic devices (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of electronic devices and office equipment that are considered to be of low value.

Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

Purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At the end of each reporting period, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information. The Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Impairment of financial assets (continued)

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs

Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs

Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Classification as equity and financial liabilities

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of financial liability and equity instrument.

A financial liability is any liability that is (a) a contractual obligation (i) to deliver cash or another financial asset to another entity; or (ii) to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the entity; or (b) a contract that will or may be settled in the entity's own equity instruments and is: (i) a non derivative for which the entity is or may be obliged to deliver a variable number of the entity's own equity instruments; or (ii) a derivative that will or may be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the entity's own equity instruments.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, other payables and accruals, redemption liabilities and interest-bearing bank borrowings.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost (trade and other payables and borrowings)

After initial recognition, financial liabilities are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Financial liabilities (continued)

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Redemption liabilities

A contract that contains an obligation to purchase the Group's equity instruments for cash or another financial asset gives rise to a financial liability for the redemption amount, even if the Group's obligations to purchase is conditional on the counterparty exercising a right to redeem. The redemption liability is initially measured at the carrying amount of the redemption amount and subsequently measured at amortised cost with interest expense being included in change in the carrying amounts of redemption liabilities.

The redemption liabilities were classified as current liabilities as certain redemption events could occur anytime. The carrying amount of the redemption liabilities will be reclassified to equity upon a termination of the counterparty's redemption right.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, mainly comprises direct materials and processing expenditures. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand and at banks, and short-term highly liquid deposits with a maturity of generally within three months that are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value and held for the purpose of meeting short-term cash commitments.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and at banks, and short-term deposits as defined above, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Provisions (continued)

The Group provides for warranties in relation to the sale of certain products for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are initially recognised based on sales volume and past experience of the level of repairs and returns, discounted to their present values as appropriate. The warranty-related cost is revised annually.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to the statement of profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to the statement of profit or loss by way of a reduced depreciation charge.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

There are no significant variable consideration and financing component for the Group's revenue from contracts with customers.

Revenue from the sale of power amplifier audio chips and other chip products

The Group provides low-power audio chips, Mid/high-power audio chips and haptic drivers as well as power management chips. Revenue from the sale of products is recognised at the point in time when control of the products is transferred to the customer, generally on delivery to the specific locations in accordance with the contracts, the risks of obsolescence and loss have been transferred to the customer, and when the customer confirmed the acceptance of the products.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods to the customer).

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Share-based payments

The Company operates a restricted stock scheme. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services in exchange for equity instruments ("equity-settled transactions"). The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value of the restricted stock is determined by an external valuer using back-solve method and adopting the equity allocation model taking into the recent capital injection price. Further details of which are given in note 29 to the financial statements.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification. Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and expense not yet recognised for the award is recognised immediately.

Other employee benefits

Pension schemes

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for certain of its employees. Contributions are made based on a percentage of the employees' basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Company and the subsidiaries which operate in Chinese mainland are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Other employee benefits (continued)

Housing fund and other social insurances

The Group has participated in defined social security contribution schemes for its employees pursuant to the relevant laws and regulations of the PRC. These include housing fund, basic medical insurance, unemployment insurance, injury insurance and maternity insurance. The Group makes monthly contributions to the housing fund and other social insurances. The contributions are charged to profit or loss on an accrual basis. The Group's liability in respect of these funds are limited to the contributions payable in each reporting period.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting.

Foreign currencies

These financial statements is presented in RMB, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

2.3 MATERIAL ACCOUNTING POLICIES (continued)

Foreign currencies (continued)

The functional currency of the overseas subsidiary is USD rather than RMB. As at the end of the reporting period, the assets and liabilities of such entity are translated into RMB at the exchange rate prevailing at the end of the reporting period and its statement of profit or loss is translated into RMB at the exchange rates that approximate to those prevailing at the dates of the transactions.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve, except to the extent that the differences are attributable to non-controlling interests. On disposal of a foreign operation, the cumulative amount in the reserve relating to that particular foreign operation is recognised in the statement of profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of the overseas subsidiary is translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of the overseas subsidiary which arise throughout the year are translated into RMB the weighted at average exchange rate for the year.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's Financial Information requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements.

Deferred tax assets

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits, together with future tax planning strategies.

The Group has accumulated tax losses carried forward of RMB218,172,000, RMB351,149,000, RMB450,376,000 and RMB540,404,000 in aggregate as at 31 December 2022, 2023, 2024 and 31 October 2025, respectively. These losses related to subsidiaries that have a history of losses, have not expired, and may not be used to offset taxable income elsewhere in the Group. On this basis, the Group has determined that it cannot recognise deferred tax assets on the tax losses carried forward.

If the Group had been able to recognise all unrecognised deferred tax assets, the profit and equity would have increased by RMB13,187,000, RMB20,515,000, RMB15,096,000 and RMB13,137,000 for the years ended 31 December 2022, 2023, 2024 and the ten months ended 31 October 2025, respectively. Further details on deferred taxes are disclosed in note 16 to the financial statements.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for expected credit losses on trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on ageing of trade receivables for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)*Provision for expected credit losses on trade receivables* (continued)

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 18 to the financial statements.

Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets (including the right-of-use assets) at the end of each reporting period. Indefinite life intangible assets are tested for impairment annually and at other times when such an indicator exists. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

Share-based payments

The Group operates a restricted stock scheme for the purpose of providing incentives to the Group's employees (including directors). The grant date fair value of the restricted stock is determined by an external valuer using back-solve method and adopting the equity allocation model taking into the recent capital injection price. Further details are contained in note 29 to the financial statements.

Provision of inventories

The Group's inventories are stated at the lower of cost and net realisable value. The Group's provision for its inventories based on estimates of the realisable value with reference to the ageing and conditions of the inventories, together with the economic circumstances on the marketability of such inventories. Inventories will be reviewed quarterly for provision, if appropriate. Further details of the inventories are set out in note 17 to the financial statements.

4. OPERATING SEGMENT INFORMATION

Operating segment information

The board of directors reviews the consolidated results of the Group when making decisions about resource allocation and assessing the performance of the Group. The board of directors considers that the Group operates in one business segment and the measurement of segment results is based on the profit from operations as presented in the consolidated statements of profit or loss and the consolidated statements of comprehensive income.

5. REVENUE, OTHER INCOME AND GAINS (continued)

Revenue from contracts with customers (continued)

(a) Disaggregated revenue information (continued)

The following table shows the amounts of revenue recognised in the Relevant Periods and in the period covered by the Interim Comparative Information that were included in the contract liabilities at the beginning of each of the Relevant Periods and recognised from performance obligations satisfied in previous periods:

	Year ended 31 December			Ten months ended 31 October	
	2022 RMB'000	2023 RMB'000	2024 RMB'000	2024 RMB'000 (unaudited)	2025 RMB'000
Revenue recognised that was included in contract liabilities at the beginning of the reporting period	2,480	2,414	4,747	4,747	7,761

(b) Performance obligations

Information about the Group's performance obligations is summarised below:

Sales of power amplifier audio chips and other chip products

The Group offers low-power audio chips, Mid/high-power audio chips, as well as other chip products, including power management chips. The performance obligation is satisfied upon delivery to the agreed-upon locations in accordance with the contracts, and when the customers confirmed the acceptance of the products. The Payment is normally received in advance, except for certain customers with established creditworthiness and a long-standing business relationship, where payment is generally due within 30 to 90 days from the invoice date.

All amounts of transaction prices allocated to the performance obligations of sales of goods or services are expected to be recognised as revenue within one year. The Group has no significant unsatisfied performance obligations arising from revenue contracts that have an original expected duration more than one year, thus management applied practical expedient under IFRS 15 and is not disclosing the aggregate amount of the transaction prices allocated to the performance obligations that are unsatisfied or partially satisfied at the end of each reporting period.

Mr. Yin Yanfeng was appointed as a director on 18 January 2021 and resigned from the position of a director with effect from 30 May 2025.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

8. DIRECTORS' AND CHIEF EXECUTIVE'S REMUNERATION (continued)

Mr. Chen Binglin was appointed as a director on 30 May 2025.

Mr. Liu Hongcan was appointed as a director on 30 May 2025.

Ms. Liu Liping was appointed as a director on 30 May 2025.

Mr. Dai Xueguang was appointed as a director on 30 May 2025.

There was no arrangement under which a director or the chief executive waived or agreed to waive any remuneration during the Relevant Periods and in the period covered by the Interim Comparative Information.

9. FIVE HIGHEST PAID EMPLOYEES

The five highest paid employees during the years ended 31 December 2022, 2023, 2024 and the ten months ended 31 October 2024 and 2025 included 2 directors, details of whose remuneration are set out in note 8 above. Details of the remuneration for the remaining 3 highest paid employees who are neither a director nor chief executive of the Company during the Relevant Periods and in the period covered by the Interim Comparative Information are as follows:

	Year ended 31 December			Ten months ended 31 October	
	2022	2023	2024	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Salaries, allowances and benefits in kind	2,466	2,050	1,991	1,660	2,470
Performance related bonuses	256	175	553	461	-
Share-based payments	1,145	1,341	1,341	1,117	721
Pension scheme contributions and social welfare	141	251	258	215	197
Total	4,008	3,817	4,143	3,453	3,388

The numbers of non-director and non-chief executive highest paid employees whose remuneration fell within the following bands are as follows:

	Number of employees				
	Year ended 31 December			Ten months ended 31 October	
	2022	2023	2024	2024	2025
HK\$1,000,001 to HK\$1,500,000	1	3	1	3	3
HK\$1,500,001 to HK\$2,000,000	2	-	2	-	-
Total	3	3	3	3	3

During the Relevant Periods and in the period covered by the Interim Comparative Information, restricted shares were granted to a non-director and non-chief executive highest paid employee in respect of his services to the Group, further details of which are included in the disclosures in note 29 to the financial statements. The fair value of such restricted shares, which has been recognised in the statement of profit or loss over the vesting period, was determined as at the date of grant and the amounts included in the financial statements for the Relevant Periods are included in the above non-director and non-chief executive highest paid employees' remuneration disclosures.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

10. INCOME TAX

The Group is subject to income tax on an entity basis on profits arising in or derived from the countries/jurisdictions in which members of the Group are domiciled and/or operate.

Chinese mainland

The subsidiaries established in Chinese mainland are subject to tax at the statutory rate of 25% on the taxable profits determined in accordance with the PRC Corporate Income Tax Law which became effective on 1 January 2008, except for these subject to tax preferential set out below:

Shanghai FourSemi Semiconductor Co., Ltd. obtained its "High and New Technology Enterprise" qualification on 14 December 2022. The Company is currently in the process of renewing its "High and New Technology Enterprise" qualification. Based on management's assessment, the Company meets the qualifying criteria, so it was entitled to the preferential tax rate of 15% during the Relevant Periods.

Certain subsidiary met the criteria as small-scaled and minimal profit enterprise with its annual taxable income less than RMB3,000,000, its actual income amount subject to tax was calculated at 25% of its annual taxable income. The aforesaid calculated taxable income of this subsidiary was entitled to a reduced corporate income tax rate of 20% for the period from 1 January 2022 and expiring on 31 December 2027.

Hong Kong

The subsidiary incorporated in Hong Kong is subject to Hong Kong profits tax at the rate of 8.25% for taxable income not exceeding HKD2,000,000, and 16.5% for taxable income exceeding HK\$2,000,000 on any estimated assessable profits arising in Hong Kong during the Relevant Periods and in the period covered by the Interim Comparative Information. No provision for Hong Kong profits tax has been made as the Group had no assessable profits derived from or earned in Hong Kong during the Relevant Periods and in the period covered by the Interim Comparative Information.

Taxes on profits assessable elsewhere have been calculated at the rates of tax prevailing in the jurisdictions in which the Group operates.

	Year ended 31 December			Ten months ended 31 October

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

10. INCOME TAX (continued)

A reconciliation of the tax expense applicable to loss before tax at the statutory rates for the jurisdiction in which the Company and its subsidiaries are domiciled and/or operate to the tax expense at the effective tax rate, is as follows:

	Year ended 31 December			Ten months ended 31 October	
	2022 RMB'000	2023 RMB'000	2024 RMB'000	2024 RMB'000 (unaudited)	2025 RMB'000
Loss before tax	<u>(65,899)</u>	<u>(94,130)</u>	<u>(56,844)</u>	<u>(46,876)</u>	<u>(51,776)</u>
Tax at the statutory tax rates of each entities' jurisdictions	(16,158)	(23,426)	(13,858)	(11,601)	(12,662)
Effect of preferential tax rates	6,040	9,246	5,899	5,077	5,455
Expenses not deductible for tax (a)	1,918	2,105	1,935	1,617	1,636
Additional deductible allowance for qualified research and development costs (b)	(4,958)	(7,600)	(8,617)	(6,954)	(7,107)
Deductible temporary differences not recognised	2,261	497	680	307	115
Deductible temporary differences utilised from previous years	(26)	(840)	(455)	(359)	(459)
Tax losses not recognised	<u>10,926</u>	<u>20,018</u>	<u>14,416</u>	<u>11,913</u>	<u>13,022</u>
Tax expense at the Group's effective tax rate	<u>3</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>

- (a) Tax effect of non-deductible expenses mainly represent the changes in the carrying amounts of redemption liabilities, share-based payments expenses and certain other costs and expenses, which all are not deductible in accordance with relevant tax regulations in the PRC.
- (b) Additional deductible allowance was for qualified research and development costs. According to the relevant laws and regulations promulgated by the State Taxation Administration of the PRC, enterprises engaging in research and development activities are entitled to claim 175% of their research and development costs so incurred as tax deductible expenses when determining their assessable profits for the year ended 31 December 2021 and the nine months ended 30 September 2022. According to the relevant laws and regulations, for the period from 1 October 2022, the aforementioned deduction rate increased to 200%.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

11. DIVIDENDS

No dividends have been paid or declared by the Company during the Relevant Periods and in the period covered by the Interim Comparative Information.

12. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The basic loss per share is calculated by dividing the loss attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares outstanding during the Relevant Periods and in the period covered by the Interim Comparative Information. The weighted average number of ordinary shares in issue was determined assuming that the paid-in capital had been fully converted into share capital at the same conversion ratio of 1:3.83 as upon the Company's transformation into a joint-stock company on 12 June 2025.

	Year ended 31 December			Ten months ended 31 October	
	2022 RMB'000	2023 RMB'000	2024 RMB'000	2024 RMB'000 (unaudited)	2025 RMB'000
Loss					
Loss for the year/period attributable to ordinary equity shareholders of the Company	<u>(65,902)</u>	<u>(94,130)</u>	<u>(56,844)</u>	<u>(46,876)</u>	<u>(51,776)</u>
Shares					
Issued ordinary shares at 1 January	77,970,039	100,000,000	100,000,000	100,000,000	100,000,000
Effect of ordinary shares of contribution from shareholders	<u>8,706,084</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>
Weighted average number of ordinary shares	<u>86,676,123</u>	<u>100,000,000</u>	<u>100,000,000</u>	<u>100,000,000</u>	<u>100,000,000</u>
Loss per share					
Basic and diluted(RMB)	<u>(0.76)</u>	<u>(0.94)</u>	<u>(0.57)</u>	<u>(0.47)</u>	<u>(0.52)</u>

No adjustment has been made to the basic loss per share amounts presented for the Relevant Periods and in the period covered by the Interim Comparative Information as the impact of the potential ordinary shares had an anti-dilutive effect on the basic loss per share amounts presented.

For the details of pre-IPO investments, please refer to Note 28 to the financial statements.

14. LEASES

The Group as a lessee

The Group has lease contracts for various items of buildings used in its operations. Leases of buildings generally have lease terms between 3 and 6 years. Generally, the Group is restricted from assigning and subleasing the leased assets outside the Group. Other rental agreements generally have lease terms of 12 months or less or are individually of low value.

(a) Right-of-use assets

The carrying amounts of the Group's right-of-use assets and the movements during the Relevant Periods are as follows:

The Group	Buildings RMB'000
As at 1 January 2022	5,993
Additions	187
Depreciation charge	<u>(2,514)</u>
As at 31 December 2022 and 1 January 2023	3,666
Additions	5,314
Depreciation charge	<u>(2,779)</u>
As at 31 December 2023 and 1 January 2024	6,201

Deferred tax credited to profit or loss during the period	<u>(304)</u>
Gross deferred tax liabilities at 31 October 2025	<u>208</u>

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

16. DEFERRED TAX (continued)

For presentation purposes, certain deferred tax assets and liabilities have been offset in the statement of financial position. The following is an analysis of the deferred tax balances of the Group for financial reporting purposes:

	As at 31 December			As at 31 October
	2022	2023	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000
Net deferred tax assets recognised in the consolidated statement of financial position	-	-	-	-
Net deferred tax liabilities recognised in the consolidated statement of financial position	-	-	-	-

Deferred tax assets have not been recognised in respect of the following items:

	As at 31 December			As at 31 October
	2022	2023	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000
Tax losses	218,172	351,149	450,376	540,404
Deductible temporary differences	18,707	16,434	17,843	15,462
Total	236,879	367,583	468,219	555,866

The Group had accumulated tax losses arising in Chinese mainland of RMB190,734,000, RMB322,060,000, RMB418,221,000 and RMB506,111,000 as at 31 December 2022, 2023, 2024 and 31 October 2025, respectively, that would expire in one to ten years for offsetting against future taxable profits. The Group had accumulated tax losses in Hong Kong of RMB27,438,000, RMB29,089,000, RMB32,155,000 and RMB34,293,000 in aggregate as at 31 December 2022, 2023, 2024 and 31 October 2025, respectively, which can be carried forward indefinitely to offset against future taxable profits of the entity in which the losses were incurred. Deferred tax assets have not been recognised with respect to tax losses and deductible temporary differences for the Company and certain subsidiaries as it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

17. INVENTORIES

The Group

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

18. TRADE RECEIVABLES

The Group

	As at 31 December			As at 31 October
	2022 RMB'000	2023 RMB'000	2024 RMB'000	2025 RMB'000
Trade receivables	14,296	30,765	42,325	48,280
Less: Impairment losses	(143)	(308)	(424)	(483)
Net carrying amount	<u>14,153</u>	<u>30,457</u>	<u>41,901</u>	<u>47,797</u>

The Group provides credit terms to certain customers with satisfied creditworthiness and long-term relationship. The credit period is generally around 30 to 90 days. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. As at 31 December 2022, 2023, 2024 and 31 October 2025, the Group had certain concentrations of credit risk as 46%, 37%, 52%, 61% and 100%, 100%, 100%, 98% of the Group's trade receivables were due from the Group's largest debtor and five largest debtors, respectively. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing. As with other customers, the Group normally demands payment in advance.

An ageing analysis of the Group's trade receivables, based on the past due information and net of loss allowance, as at the end of each of the Relevant Periods is as follows:

	As at 31 December			As at 31 October
	2022 RMB'000	2023 RMB'000	2024 RMB'000	2025 RMB'000
Within 3 months	12,521	30,457	41,901	47,607
3 to 6 months	<u>1,632</u>	-	-	<u>190</u>
Total	<u>14,153</u>	<u>30,457</u>	<u>41,901</u>	<u>47,797</u>

The movements in the impairment of trade receivables are as follows:

	As at 31 December			As at 31 October
	2022 RMB'000	2023 RMB'000	2024 RMB'000	2025 RMB'000
At beginning of year/period	18	143	308	424
Impairment losses on financial assets, net	<u>125</u>	<u>165</u>	<u>116</u>	<u>59</u>
At end of year/period	<u>143</u>	<u>308</u>	<u>424</u>	<u>483</u>

The Group applies the simplified approach in calculating ECLs for trade receivables. Trade receivables relating to customers not sharing similar credit risk with others are assessed individually for impairment allowance, for instance, customers with known financial difficulties or significant doubt on collection. The remaining trade receivables are grouped and collectively assessed for impairment allowance. Under the collective approach, an impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on ageing analysis for grouping of customers that have similar loss patterns. The calculation reflects the age of the balances, existence of disputes, recent historical payment patterns, any other available information concerning the creditworthiness of counterparties and influence from macro economy.

As at 31 October 2025	<u><u>599</u></u>

Under the terms of the Group's sales agreements, the Group offers warranties for its products. Provision is therefore made for the best estimate of the expected settlement under these agreements in respect of sales made within the warranty periods prior to the end of each reporting period. The amount of provision takes into account the Group's recent claim experience and is only made where a warranty claim is probable.

26. REDEMPTION LIABILITIES

The Group and the Company

Redemption liabilities	<u>30,775</u>	<u>33,244</u>	<u>35,911</u>	<u>38,281</u>

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

26. REDEMPTION LIABILITIES (continued)

The movements of the redemption liabilities during the reporting period are set out below:

	Redemption liabilities on equity shares RMB'000
As at 1 January 2022	-
Grant of redemption right in financing	30,000
Changes in the carrying amounts of redemption liabilities	775
As at 31 December 2022 and 1 January 2023	30,775
Changes in the carrying amounts of redemption liabilities	2,469
As at 31 December 2023 and 1 January 2024	33,244
Changes in the carrying amounts of redemption liabilities	2,667
As at 31 December 2024 and 1 January 2025	35,911
Changes in the carrying amounts of redemption liabilities	2,370
As at 31 October 2025	38,281

A contract that contains an obligation to purchase the equity instruments for cash or another financial asset gives rise to a financial liability for the redemption amount, even if the obligation to purchase is conditional on the counterparty exercising a right to redeem. The redemption liability is initially measured at the carrying amount of the redemption amount and is subsequently measured at amortised cost, with interest expense included in the changes in the carrying amounts of financial instruments issued to the investor. The carrying amount of the redemption liabilities is reclassified to equity upon the termination of the counterparty's redemption right.

In 2022, the Company conducted financing by issuing registered capital to an investor and the investor was granted a right to put back to the Company the registered capital acquired upon occurrence of any of the following events which cannot be controlled by the Company:

- (i) The Company failing to achieve a qualified Initial Public Offering (the "Qualified IPO") before 31 December 2025;
- (ii) The Company, the controlling shareholder, core shareholders or the employee shareholding platform committing material breaches of contract, violating the representations or warranties, or breaching the covenants and obligations, resulting in material adverse impacts on the Group or the investor, and failing to effectively remedy such situations (if such violations are remediable) within 30 working days after receiving a notice from the investor;
- (iii) The controlling shareholder violating the non-competition obligation stipulated in the supplementary agreement; or
- (iv) Within three years from 2022, the controlling shareholder and core shareholders prior to the investment having seriously breached the principle of good faith, or that the information disclosed by the Group regarding the Group's assets, business operations, or intellectual property status being materially inconsistent with the facts, thereby significantly impairing the investment interests of the investor.

The redemption price is calculated as the higher of (i) the sum of the actual investment amount paid by the investor and the compound annual interest calculated at a rate of 8% on the investment amount from the date of investment payment until the date of full redemption payment; and (ii) the net assets of the Group, as audited by an accounting firm, at the latest accounting period end corresponding to the equity of the Group held by the investor.

According to the investment agreement and the opinion of Company's PRC legal counsel, such redemption rights will be suspended upon the Company's listing application to the Stock Exchange and will automatically revive under the following circumstances: (1) if the initial public offering ("IPO") application is withdrawn, becomes invalid, or is rejected; or (2) if the IPO has not been completed within 12 months after the suspension of such special rights.

The redemption rights will automatically terminate upon the successful Qualified IPO. For the details of pre-IPO investments, please refer to Note 28 to the financial statements.

Shanghai FourSemi Semiconductor Co., Ltd.

A summary of movements in the Company's paid-in capital/share capital is as follows:

	As at 31 December			As at 31 October
	2022 RMB'000	2023 RMB'000	2024 RMB'000	2025 RMB'000
At the beginning of the year/period	20,368	26,122	26,122	26,122
Capital contribution from shareholders	5,754	-	-	-
Conversion into a joint stock company	-	-	-	73,878
At the end of the year/period	26,122	26,122	26,122	100,000

In August 2022, the Company issued 5,754,000 paid-in capital with a nominal value of RMB1 each to 11 investors for a cash consideration of an aggregate amount of RMB206,679,000. The total proceeds were received in 2022, with RMB5,754,000 and RMB200,925,000 credited to the Company's paid-in capital and capital reserve, respectively.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

28. PAID-IN CAPITAL/SHARE CAPITAL (continued)

On 12 June 2025, the Company was converted into a joint stock limited company with limited liability under the Company Law of the PRC. The net assets of the Company as at the conversion date were converted into 100,000,000 shares at RMB1 each. The excess of net assets converted over nominal value of the ordinary shares of RMB was credited to the Company's capital reserves.

Prior to the Relevant Periods and until August 18, 2022, the Company entered into respective investment agreements for the subscription of Shares with various pre-IPO Investors for total net cash proceeds of approximately RMB526,500,000. Of these, as of August 18, 2022, 16,907,470 Shares issued for total net cash proceeds of approximately RMB526,400,000 (collectively the "Pre-IPO Investments"), carried special rights ("Special Rights") granted by the Company.

Pursuant to the aforementioned agreements, including the investment agreement entered among the Company, Mr. Xu and the Pre-IPO Investors (including Huzhou Zhuosheng) (the "Pre-IPO Investors") on August 18, 2022 (the "Investment Agreement") and the supplemental agreement to the Investment Agreement entered among the Company, Mr. Xu and the Pre-IPO Investors (including Huzhou Zhuosheng) on August 18, 2022 (the "First Supplemental Agreement"), the Pre-IPO Investors were granted Special Rights which included redemption rights, anti-dilution rights, information rights, co-sale rights, right of first refusal and liquidation preferences granted by the Company, as well as redemption rights granted by Mr. Xu.

Prior to their termination, only certain information rights and director nomination rights among the Special Rights granted by the Company had been exercised in the ordinary course for governance and information purposes. There was no exercise of any redemption or other financial Special Rights granted by the Company throughout the Relevant Periods.

On 30 April 2025, the Company and the Pre-IPO Investors except for "Huzhou Zhuosheng Equity Investment Partnership (Limited Partnership) ("Huzhou Zhuosheng") subsequently entered into a supplemental agreement (the "Second Supplemental Agreement"), pursuant to which the redemption rights granted by the Company to such Pre-IPO Investors (excluding Huzhou Zhuosheng) were irrevocably terminated and became void ab initio. Subsequently, on June 27, 2025, the Company, Mr. Xu and the Pre-IPO Investors (excluding Huzhou Zhuosheng) entered into a further supplemental agreement (the "Third Supplemental Agreement"), pursuant to which (i) all other remaining Special Rights granted by the Company to such Pre-IPO Investors (including pre-emptive rights, anti-dilution rights, liquidation preferences and other rights as listed above) were terminated, effective on the date immediately preceding the Listing, and (ii) the redemption rights granted by Mr. Xu to such Pre-IPO Investors were terminated, effective on the date preceding the first submission of the listing application. Taking into account the legal and regulatory framework of the Company's jurisdiction and the governing law of the supplemental agreements, the directors considered that it is appropriate to present the Pre-IPO Investments except for Huzhou Zhuosheng as equity.

For the details of redemption liabilities recognised related to Huzhou Zhuosheng, please refer to Note 26 to the financial statements.

Had the Special Rights granted by the Company to the Pre-IPO Investors been accounted for as financial liabilities measured at present value of the redemption amount prior to entering into the supplemental agreements, (i) the redemption financial liabilities, total current liabilities, net current liabilities and net liabilities would have been:

	As at 31 December		
	2022 RMB'000	2023 RMB'000	2024 RMB'000
Redemption financial liabilities	697,684	811,676	876,794
Total current liabilities	724,403	885,232	979,770
Net current liabilities	(443,532)	(642,220)	(699,221)
Net liabilities	(368,570)	(566,978)	(679,010)

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

28. PAID-IN CAPITAL/SHARE CAPITAL (continued)

(ii) the changes in the carrying amounts of redemption liabilities, the net loss for the year, basic and dilutive loss per share would have been:

	For the year ended 31 December			For the ten months ended 31 October	
	2022	2023	2024	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Changes in the carrying amounts of redemption liabilities	(44,575)	(59,220)	(65,118)	(53,914)	(34,537)
Total net loss	(109,702)	(150,881)	(119,295)	(98,582)	(83,943)
Loss per share					
Basic and diluted(RMB)	(1.27)	(1.51)	(1.19)	(0.99)	(0.84)

29. SHARE-BASED PAYMENTS

In recognition of the contributions of the Group's key employees and to incentivize them to further promote the Group's development, the Group awards the partnership interest in the employee shareholding platforms to the employees and adopts the employee stock ownership plan.

On 10 January 2022 and 28 February 2022, pursuant to the employee stock ownership plan, 19,032 shares and 5,947 shares of the Company were granted to eligible participants through the employee shareholding platforms, respectively, in the form of restricted shares. The grant date fair values of these shares were determined by an external valuer taking into the recent capital injection price from series C+ investors in August 2021 using the back-solve method and adopting the equity allocation model. The difference between the fair value of the shares granted and the subscription price was recorded in the share-based payment reserve within equity with the corresponding "share-based payment expenses" in profit or loss.

Shares granted during the Relevant Periods needs to meet service requirements from the date of grant to the later of (1) four years or five years since the grant date (the "Service Period") and (2) the date of successful IPO of the Company (the "Lock-up Period"). After taking into consideration of the best estimation of the IPO, the management determined the vesting period of the relevant shares based on the above service requirements. As such, the share-based payment expenses are amortised during the vesting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

29. SHARE-BASED PAYMENTS (continued)

Movements in the number of equity interest shares granted and the respective weighted average grant date fair values were as follows:

	Year ended 31 December			Ten months ended 31 October		
	2022	2023	2024	2023	2024	2025
	Weighted average grant date fair value RMB per share	Number of shares	Weighted average grant date fair value RMB per share	Number of shares	Weighted average grant date fair value RMB per share	Number of shares
At the beginning of the year/period	23.47	5,791,428	23.57	5,761,565	23.53	5,738,727
Granted	36.28	24,979	-	-	-	-
Forfeited	19.59	(54,842)	31.79	(22,838)	33.61	(82,075)
At the end of the year/period	23.57	5,761,565	23.53	5,738,727	23.39	5,656,652

Share-based payment expenses relating to employees recognised for the Relevant Periods and in the period covered by the Interim Comparative Information are as follows:

	Year ended 31 December			Ten months ended 31 October		
	2022	2023	2024	2023	2024	2025

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

30. RESERVES

The Group

The amounts of the Group's reserves and the movements therein for the Relevant Periods are presented in the consolidated statements of changes in equity.

(i) Capital reserve

The capital reserve consists of premiums in issuing capitals and the amounts in relation to the recognition of the redemption liabilities as set out in note 26 to the financial statements.

(ii) Exchange fluctuation reserve

The exchange fluctuation reserve represents exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from the Group's presentation currency.

(iii) Share-based payment reserve

The share-based payment reserve represents the equity-settled share awards as set out in note 29 to the financial statements.

Total	<u>2,407</u>	<u>3,908</u>	<u>3,316</u>	<u>2,776</u>	<u>2,494</u>

32. CONTINGENT LIABILITIES

During the relevant periods, the Company had been a defendant in a patent dispute lawsuit filed by a party alleging that the Company infringed its invention patent in Chinese mainland. This lawsuit is still ongoing and has not yet been scheduled for court. The Company had obtained an appraisal report issued by an authoritative judicial appraisal center. The report concludes that the technical features of implicated products are neither identical nor equivalent to those covered by the plaintiff's patent. The Company's PRC litigation advisor is of the view that there are reasonable grounds to believe the court would dismiss the claims on the basis that the said chip products should not fall under the protection of such invention patent. The directors, based on the advice from Company's PRC litigation advisor, believe that the Company has a valid defense against the allegation and, accordingly, the Group has not provided for any claim arising from the litigation, other than the related legal and other costs.

33. COMMITMENTS

The Group had the following capital commitments at the end of the Relevant Periods:

	As at 31 December			As at 31 October	
	2022 RMB'000	2023 RMB'000	2024 RMB'000	2024 RMB'000	2025 RMB'000
Contracted, but not provided for:					
Properties, plant and equipment	<u>189</u>	<u>1,456</u>	<u>-</u>	<u>-</u>	<u>-</u>

34. RELATED PARTY TRANSACTIONS

The directors are of the opinion that the following parties are related parties that had material transactions or balances with the Group during the Relevant Periods and in the period covered by the Interim Comparative Information.

(a) Names of related parties and their relationship with the Group

Name	Relationship with the Group
Mr. Xu Xiaolin ("Mr. Xu")	Founder, chairman of the board and director
Mr. Liu Baoliang	Co-founder and director

(b) Transactions with related parties:

	As at 31 December			As at 31 October	
	2022 RMB'000	2023 RMB'000	2024 RMB'000	2024 RMB'000 (unaudited)	2025 RMB'000
Loans repaid by directors	2,646	-	-	-	-
Interest income from directors	9	-	-	-	-

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

34. RELATED PARTY TRANSACTIONS (continued)

The Group and the Company

The Company granted loans to the directors, with interest rates set at 4.85% and 4.75% respectively. As of 31 December 2022, the directors had fully repaid the principal amounts and the accrued interest.

Redemption rights of the Pre-IPO Investors granted by Mr. Xu

Pursuant to the investment agreement entered into on 18 August 2022, the Pre-IPO Investors had been granted the redemption rights by the Company and/or Mr. Xu Xiaolin. According to the supplemental agreements entered into on 27 June 2025 by the Company and the Pre-IPO Investors (excluding "Huzhou Zhuosheng"), Mr. Xu has been designated as the sole obligor for the redemption rights, and the Company is no longer a party to the redemption rights. The relevant redemption liabilities shall automatically terminate one day prior to the Company's submission of its initial public offering application to the Hong Kong Stock Exchange (the "Listing Application"). However, the provisions relating to the redemption liabilities shall automatically resume effectiveness, and shall have retroactive effect from the earliest of the following events:

- (1) the Company voluntarily withdraws the Listing Application;
- (2) the Listing Application is rejected or returned by the Hong Kong Stock Exchange;
- (3) the Listing Application fails to be approved at the hearing by the Hong Kong Stock Exchange; or
- (4) the earlier of the 18-month of the date of signing this agreement and the completion of the Listing Application.

There were no side agreements or arrangements between the Company and Mr. Xu regarding the redemption rights of the Pre-IPO Investors, nor had the Company provided any form of guarantee in connection with any potential default or failure by Mr. Xu to fulfill his obligations relating to such redemption rights. Although the Company was a signing party to the agreements entered into between the Pre-IPO Investors and Mr. Xu, the Company had no connection or involvement in the arrangements concerning redemption rights between the Pre-IPO Investors (excluding "Huzhou Zhuosheng") and Mr. Xu, nor did it bear any obligation to repurchase any Shares under such terms. Accordingly, no financial liability pertaining to redemption rights, other than for "Huzhou Zhuosheng", was recognized during the Relevant Periods.

(c) Outstanding balances with related parties:

36. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The carrying amounts and fair values of the Group's financial instruments, other than those with carrying amounts that reasonably approximate to fair values, are as follows:

	Carrying amounts			Fair values		
	As at 31 December		As at 31 October	As at 31 December		As at 31 October
	2023	2024	2025	2023	2024	2025
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Financial liability						
Interest-bearing bank borrowings - non-current	-	19,696	19,600	-	19,784	19,617

Management has assessed that the fair values of cash and cash equivalents, current portion of time deposits, pledged deposits, trade receivables, trade payables, financial assets included in prepayments, deposits and other receivables, short-term interest-bearing bank borrowings, financial liabilities included in other payables and accruals and redemption liabilities approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer.

Shanghai FourSemi Semiconductor Co., Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

36. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

The fair values of non-current portion of time deposits, pledged deposits, interest-bearing bank borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for Interest-bearing bank borrowings as at 31 December 2023 and 2024 and 31 October 2025 was assessed to be insignificant.

37. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise Interest-bearing bank borrowings and cash and bank balances. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade receivables, and trade payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are recognised below.

Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's bank borrowings.

The Group's policy is to manage its interest cost using a mix of fixed and variable rate debts. As at 31 December 2023, 2024 and 31 October 2025, none of the Group's interest-bearing borrowings bore interest at floating rates. Accordingly, as at the end of each of the Relevant Periods, the Group did not have any significant exposure to the interest rate risk in the cash flows.

Foreign currency risk

The Group has transactional currency exposures. Such exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies. The Group principally conducted business in RMB, which is exposed to foreign currency risk with respect to transactions denominated in currencies other than RMB. In addition, the functional currency of the Company's subsidiary incorporated in Hong Kong is USD, which is exposed to foreign currency risk with respect to transactions denominated in currencies other than USD. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in currencies that are not the functional currencies of the relevant group entities.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the USD/RMB exchange rate, with all other variables held constant, of the Group's loss before tax (arising from USD/RMB denominated financial instruments) and the Group's equity (due to changes in the fair value of forward currency contracts).

Credit risk

The Group only offers credit terms to recognised and creditworthy customers. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant. For transactions that are not denominated in the functional currency of the relevant operating unit, the Group does not offer credit terms without the specific verification procedures.

Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at the end of Relevant Periods.

As at 31 December 2022

	12-month ECLs	Lifetime ECLs			Total RMB'000

* For trade receivables to which the Group applies the simplified approach for impairment, information based on the provision matrix is disclosed in note 18 to the financial statements.

** The credit quality of the financial assets included in prepayments, deposits and other receivables is considered to be "normal" when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition. Otherwise, the credit quality of the financial assets is considered to be "doubtful".

Liquidity risk

The Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management of the Group to finance the operations and mitigate the effects of fluctuations in cash flows.

The maturity profile of the Group's financial liabilities as at the end of each of the Relevant Periods, based on the contractual undiscounted payments, is as follows:

	31 December 2022				
	Within 1 year or on demand RMB'000	1 to 2 years RMB'000	2 to 3 years RMB'000	3 to 5 years RMB'000	Total RMB'000

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the Relevant Periods.

The Group monitors capital using a debt-to-asset ratio which is total liabilities divided by total assets. As at 31 December 2022, 2023, 2024 and 31 October 2025, the Group's debt-to-asset ratios were 17%, 34%, 50% and 62%, respectively.

38. EVENTS AFTER THE RELEVANT PERIODS

There are no significant subsequent events undertaken by the Company or by the Group after 31 October 2025.

39. SUBSEQUENT FINANCIAL STATEMENTS

No audited financial statements have been prepared by the Company, the Group or any of the companies now comprising the Group in respect of any period subsequent to 31 October 2025.
