

31 January 2023

Cloudbreak Discovery Plc
("Cloudbreak" or the "Company")

Total Voting Rights

In accordance with the FCA's Disclosure Guidance and Transparency Rules, as at 31 January 2023, the Company's issued share capital consists of 599,801,976 Ordinary Shares of 0.1p, each with one voting right. The Company does not hold any Ordinary Shares in treasury. Therefore, the total number of voting rights in the Company is 599,801,976.

The above figure of 599,801,976 should be used by shareholders in the Company as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change to their interest in, the share capital of the Company under the Financial Conduct Authority's Disclosure Guidance and Transparency Rules.

About Cloudbreak Discovery PLC

Cloudbreak Discovery PLC is a leading natural resource project generator and royalty business. Cloudbreak is focused on energy royalty acquisitions with the aim of bringing near-term cashflow and driving shareholder value. Its primary operating jurisdiction is the United States, but the Company also deploys its project generation model in the international energy sector to acquire minority interests in projects of merit.

Through its wholly owned but independently operated subsidiary, Cloudbreak Exploration Inc., the Company will develop its array of mineral assets, whilst continuing to generate new projects with a particular focus on commodities key to the energy transition.

Cloudbreak's generative model across the energy and mineral sector enables a multi-asset approach to investing and exploration. Diversification within the natural resource sector and amongst resource classes is key to withstanding the cycles of investing.
