Zenova Group PLC
("Zenova", the "Company" or the "Group")
Viridis Group appointed as a sub-distributor for Poland

Zenova Group PLC (AIM: ZED) a provider of fire safety and heat management technology solutions, is pleased to announce Viridis Group Ltd ("Viridis") as a Zenova sub-distributor for Poland, with an immediate initial stock order of £21k placed by Viridis for Zenova FP, IR and IP products.

Commenting on the Appointment ,Director, Ihor Shnel from Viridis Group Ltd said: "Viridis Group Sp. z o. o. became the official partner and sub distributor of Zenova products in Poland.

The VIRIDIS Group and subsidiaries www.Budmonolit.pl and www.bexman.eu have experience in the construction industry within the European market, and have been recently focused on searching for new ecological and environmentally friendly solutions in the field of construction and other economic sectors for both existing and new clients.

That is why we are very pleased to be part of the extended Zenova team, focused on joint development with the ZENOVA brand as a leading product and solution of ecological thermal insulation paints and fire protection products. We look forward in representing Zenova in Poland with EU policies becoming more regulative for such products in the Construction sector. We also look forward to stocking and selling the exciting Zenova FX range".

Tony Crawley, CEO of Zenova Group PLC, commented: " We are pleased to appoint Viridis as a sub distributor and reseller for Poland. Their team are very passionate about the Zenova product range and they have valuable experience within the construction and development sector within Poland. We look forward to working closely with the Viridis team and their clients with training on installation and demonstrations on the key benefits of the Zenova solutions. across many sectors".

About Zenova Group PLC:

The Group, through Zenova Ltd, is the holder of intellectual property that underpins a suite of fire safety and temperature management products and technology. The product range is applicable to industrial, commercial, and residential markets. The Group's solutions include fire retardant paints, insulating paints and render, fire extinguishing fluid and applications. Through innovative development, and a refined formulation and development process, Zenova provides industry leading solutions across a range of fire protection and temperature management problems, comprising:

Zenova FP

A water-based fire-protection paint that prevents ignition and spread of fire. It can be used in commercial,

industrial, and domestic applications on a variety of materials, from wood to metal.

[Zenova FX](#)

Patent pending fire extinguisher filled with proprietary Zenova Fluid (Zenova FXB) that extinguishes all types of fires, reduces chances of re-ignition, works in cold (-15°C) conditions, is non-toxic and does not produce harmful by-products.

[Zenova FX500](#)

A high-performance handheld fire extinguisher that is tested by independent experts and adheres to the highest industry standards. The fire extinguisher is safe to use on any type of fire, reduces the risk of reignition once the fire has been extinguished and has been tested to the BS 6165 standard. It boasts an efficient and compact design, allowing for it to be dispersed from any 360° orientation, which ensures that the Zenova FX500 is convenient to handle and simple to operate while providing the user with a highly effective and fast working fire extinguisher.

[Zenova IP](#)

Thermal insulation paint that creates a thermal barrier, provides thermal reflection of sunrays and infrared radiation, anti-condensation, and anti-mould properties. It can be applied to virtually any exterior or interior material, regardless of the surface.

[Zenova IR](#)

Thermal insulation render to enhance the effectiveness of insulation by creating a thermo shield. It fills all cavities and gaps regardless of geometric shape and creates a vacuum - the most effective insulator.

[Zenova WB](#)

A wildfire barrier fluid (applied via spray wands or aerial drops), which provides a virtual barrier where fire simply will not burn. Repeated tests on a variety of extremely dry wildfire fuels (grasses, hays, brush) demonstrates the incredible fire resistance Zenova WB provides, while remaining viable after application for 30+ days in dry conditions.

[Zenova CS](#)

Patent pending next generation ceiling sprinkler filled with proprietary Zenova Fluid (Zenova FXB) that removes the need to install large fluid tanks, piping, complicated equipment, and software. This sprinkler could be installed in the kitchen.

The Group has achieved this without compromising the sustainability of natural and economical resources, including personal health and safety, with ecologically sound products.
