("Gulf Keystone", "GKP" or "the Company")

**Update on Shaikan Field exports**

Gulf Keystone announces that it received notification that the export pipeline to Ceyhan and operations at the Ceyhan terminal have been temporarily suspended pending inspection to assess any potential impact from the earthquakes in Turkey yesterday.

GKP's production facilities and well sites have not been damaged by the earthquakes and all staff continue to work safely. The facilities have storage capacity that allow continued production at a curtailed rate over the next few days after which the Company would suspend production until pipeline export operations resume.

We are closely monitoring the situation and will provide further updates as the situation develops. GKP's thoughts are with all those affected by the tragedy.
