**Notes to Editors**

Northcoders is a market leading provider of coding and software development training for businesses and individuals. Founded in 2015, its business model operates a hybrid structure with a flagship site in Manchester and other sites in Leeds, Birmingham and Newcastle supported by a proven digital offering to support its students across the UK.

Powered by IP rich technology, Northcoders' coding school offers boot camp courses to individuals from a range of backgrounds, delivered through virtual and physical learning. The Group also works with blue chip corporates across multiple sectors to supply innovative EdTech solutions for the upskilling and reskilling of employees, and is also a registered provider of government-backed apprenticeships in the field.

With a keen focus of inclusivity, diversity and quality at its core, Northcoders aims to address the digital skills gap in the UK to meet the increasing demand for digital specialists from businesses and public agencies. It operates in a significant and growing market with structural growth trends further accelerated by Covid-19.

Northcoders was admitted to trading on AIM in July 2021 with the ticker CODE.L. For additional information please visit [investors.northcodersgroup.com](https://investors.northcodersgroup.com).
