Notes to Editors

LifeSafe is a fire safety technology business that develops eco-friendly, novel and innovative fire extinguishing fluids with a range of life-saving fire safety products. Through its highly experienced management team, LifeSafe is seeking to create new markets for the Group in fire safety through new technologies, digital marketing and multi-channel sales.

LifeSafe has developed what the Directors believe to be a market disrupting range of eco-friendly fire safety protection products including, launched in December 2022, a new Thermal Runaway Fluid to combat thermal runaway in lithium battery fires by permanently extinguishing and preventing the re-ignition of lithium fires. This is an evolution of the Group's core FER1000 extinguishing fluid, for which the Group has been granted a patent in the UK, which has been developed by LifeSafe to extinguish five different types of fire: electrical, paper, textiles, cooking oil, and petrol and diesel.

The Group's best-selling product using this extinguishing fluid is the StaySafe 5-in-1 fire extinguisher. It was launched on Amazon Prime in the UK in August 2021 and subsequently became Amazon Prime's top-selling fire extinguisher in the UK in the same month. The StaySafe 5-in-1 and the PanSafe pan fire extinguisher were launched in Screwfix in Spring.

LifeSafe is continuing to develop new fluid derivations for the industrial market.

LifeSafe was admitted to trading on AIM in July 2022 with the ticker LIFS.L. For additional information please visit <https://www.lifesafeholdingsplc.com>.
