Notes to Editors:

Oriole Resources PLC is an AIM-listed gold exploration company, operating in West Africa. It is focussed on early-stage exploration in Cameroon, where the Company has recently reported a maiden Resource of 305,000 oz Au in the JORC Inferred category at the Bibemi project and has identified multi-kilometre gold and lithium anomalism within the district-scale Central Licence Package project. At the more advanced Senala gold project in Senegal, IAMGOLD is the operator and has the option to spend up to US\$8 million to earn up to a 70% interest. Under the terms of the Option Agreement, IAMGOLD has met its first commitment by spending US\$4 million within an initial four years and has therefore earned an initial 51% beneficial interest in Senala. The Company also has several interests and royalties in companies operating in East Africa and Turkey that could deliver future cash flow.
