

Cablevisión Holding announces its Full Year and Last Quarter 2022 Results

Buenos Aires, Argentina, March 10th, 2023 - Cablevisión Holding S.A., ("Cablevision Holding", "CVH" or "the Company" - BCBA: CVH; LSE: CVH; Level 1: CVHSY), controlling shareholder of Telecom Argentina S.A. (NYSE: TEO, BCBA: TECO2), announced today its Full Year and Last Quarter 2022 Results. Figures have been prepared in accordance with International Financial Reporting Standards ("IFRS") and are stated in constant Argentine Pesos ("Ps." or "P\$") as of December 31, 2022, unless otherwise indicated.

The Company's Management has applied IAS 29 (inflation adjustment) in the preparation of these financial statements, following the provisions of Resolution 777/18, issued by the Comisión Nacional de Valores ("CNV").

CVH Highlights (2022 vs. 2021):

- Total Revenues reached Ps. 729,182 million, a decrease of 12.0% in real terms as of 2022, compared to the same period of 2021, in a context in which price increases for our services in 2021 weren't sufficient to compensate for the lag vis a vis inflation (94.8% interannually as of December 2022).
- Total Costs (Excluding Depreciation and Amortization) reached Ps. 529,386 million, a decrease of 7.2% in constant currency, mainly driven by lower costs on all items, except for employee benefits expenses and severance payments, and bad debt expenses.
- EBITDA reached Ps. 199,796 million as of 2022, a decrease of 22.6% in real terms compared to 2021, mainly driven by lower revenues, partially offset by lower operating costs, which resulted in a lower EBITDA Margin of 27.4% in 2022, compared to 31.1% in 2021.
- Consolidated Net Loss amounted to Ps. 168,757 million. Consolidated net loss attributable to the Controlling Company amounted to Ps. 100,704 million. Given the economic and market conditions, Telecom and the Company assessed the recoverable value of the goodwill assets generated by the merger of Telecom and Cablevisión as of September 30, 2022. Consequently, the net income for the period contains an impairment loss, which amounts to Ps. 204,744 million in constant currency as of December 31, 2022. This impairment does not affect assets other than mentioned goodwill and has no impact over Telecom's operations or its cash generation capacity.

FINANCIAL HIGHLIGHTS

(millions of Ps. in constant Currency as of December 31, 2022)

	2022	2021	%Ch.	4Q22	3Q22	4Q21	QoQ	YoY

⁽¹⁾ EBITDA is defined as Total Revenues minus operating cost and expenses (excluding depreciation and amortization). We believe that EBITDA is a meaningful measure of our performance. It is commonly used to analyze and compare media companies based on operating performance, leverage and liquidity. Nonetheless, EBITDA is not a measure of net income or cash flow from operations and should not be considered as an alternative to net income, an indication of our financial performance, an alternative to cash flow from operating activities or a measure of liquidity. Other companies may compute EBITDA in a different manner; therefore, EBITDA as reported by other companies may not be comparable to EBITDA as we report it.

⁽²⁾ EBITDA Margin is defined as EBITDA over Total Revenues.

OPERATING RESULTS

Total Revenues reached Ps. 729,182 million in 2022, a decrease of 12.0% in real terms compared to Ps. 828,831 million in 2021, mainly driven by the difficulty of increasing prices for services along with an increasingly higher inflation rate.

Following is a breakdown of Total Revenues:

<i>(millions of Ps. in constant Currency as of December 31, 2022)</i>					
Mobile Services	293,112	313,872	(6.6%)	40.2%	37.9%
Internet Services	161,740	176,810	(8.5%)	22.2%	21.3%
Cable TV Services	130,904	160,802	(18.6%)	18.0%	19.4%
Fixed Telephony and Data Services	89,023	114,792	(22.4%)	12.2%	13.8%
Other revenues from services	5,782	4,515	28.1%	0.8%	0.5%
Revenues from Services	680,561	770,791	(11.7%)	93.3%	93.0%
Revenues from Equipment Sales	48,621	58,041	(16.2%)	6.7%	7.0%
Total Revenues	729,182	828,831	(12.0%)	100.0%	100.0%

Mobile Services Revenues decreased by 6.6% in real terms to Ps. 293,112 as of 2022, mainly due to the restatement effect as of December 31, 2022.

In Argentina, Personal mobile subscribers reached approximately 20.2 million (+114 thousand compared to 2021) and around 43% of them are postpaid. Mobile internet revenues reached 86% of Personal Argentina service revenues. Mobile ARPU decreased 8.3% in real terms during the 2022 compared to 2021 (Ps. 1,102.6 in 2022 vs Ps. 1,201.9 in 2021). Mobile churn was 2.3% as of 2022, compared to 1.5% in 2021.

On the infrastructure side, our subsidiary Telecom continued to enhance the mobile internet experience of its clients through the deployment of the 4G and 4G+ networks throughout the country, reaching more than 14.8 million clients with 4G devices. During 2022, the 4G technology traffic represented 95% of the total traffic.

In addition, it has been preparing its network for the arrival of 5G technology by expanding coverage, availability, and capacity of the network through technologic reconversion and continuing the deployment of 4G. During 2022, 143 sites with mobile DSS 5G antennas were enabled in some of the county's main cities, with the goal of preparing the technical and regulatory conditions that allow the full development of the 5G network.

As of December 31, 2022, Núcleo customer base increased 0.1% to 2.2 million subscribers, of which 21% are postpaid. Revenues from Núcleo services were Ps 25,077 million in 2022, a decrease of 22.9% compared to 2021, mainly due to a decrease in ARPU measured in constant pesos, partially offset by the appreciation of the Guaraní vis a vis the Argentine Peso.

Internet Services Revenues dropped 8.5% in real terms to Ps. 161,740 in 2022 mainly due to a 9.3% lower Broadband ARPU. Of the 4.1 million broadband customers reached in 2022, around 84% subscribed to services with speeds of 50Mb or higher. Monthly churn increased to 1.6% in 2022, from 1.5% in 2021.

Telecom Argentina continues deploying FTTH technology (Fiber To The Home), improving clients' connectivity experience with symmetric speeds of up to 300 Mb, with low latency and multiple devices connected, among other advantages. As part of the initiatives to continue evolving the customer experience of fixed internet services, during the end of this year, Telecom doubled the internet speed to all its home customers (with HFC, FTTH technology).

Cable TV Services Revenues amounted to Ps. 130,904 million in 2022, a decrease of 18.6% compared to 2021, mainly due to the restatement effect as of December 31, 2022. Cable TV ARPU reached Ps. 3,006.9 in 2022,

a decrease of 18.0% compared to 2021. Additionally, Cable TV churn increased to 1.3% in 2022 from 1.1% in 2021.

During 2022 our subsidiary Telecom continued boosting its entertainment proposal with innovative content and new national and international productions, offering a top tier cross- platform experience to its clients.

Moreover, our subsidiary Telecom continued to focus on innovation, through partnerships with renown national and international content producers such as Disney+, Paramount+, Star+, Netflix and Amazon Prime Video, in line with its strategy of transforming it in a comprehensive platform its clients value and continue to choose for its wide variety of content and differential functionalities. Currently, Flow includes not only lineal TV, series, on demand movies, documentaries, and co-productions, but also music and gaming and it will continue to grow as the clients' needs evolve.

In addition, as a step forward into the technological evolution of its platform Flow, it began activating the ISDBT digitalization service solution to its analogical customers. This new solution allows clients connect to a digital service from the traditional cable connection without needing a decoder. This initiative started in the cities of Neuquén, La Plata, Córdoba and Mar del Plata, as well as surrounding areas to each city, and continued to expand in 2H22 to the City of Buenos Aires and some peripheral areas.

As part of the continuous renewal of customer premises equipment, it presented a new self-installing decoder with differential properties of surround sound, Google Assistant, integrated Chromecast, 4K resolution, HDR, Dolby Vision, among others.

Furthermore, during 2022, Telecom launched Flow Flex, a new flexible pay TV service that enables clients to hire the service for a few days period.

Fixed Telephony and Data Services Revenues reached Ps. 89,023 million in 2022, a decrease of 22.4% compared to 2021, mainly due the restatement effect as of December 31, 2022 and a decrease in the fixed telephony customer base. Additionally, ARPU in fixed telephony reached Ps. 1,445.0 in 2022, decreasing 4.6% when compared to 2021.

On the corporate segment side, our subsidiary Telecom continued to develop a series of initiatives aimed at businesses, accompanying them in their digital transformation process, helping them evolve and grow their e-commerce platforms, logistics and inventory, among others.

In addition, it continues adding proposals to its cybersecurity services portfolio.

Revenues from equipment sales totaled Ps. 48,621 million in 2022, a drop of 16.2% in real terms compared to 2021, mainly due to a decrease in the quantities sold, partly compensated by an increase in the average prices of equipment.

Consolidated Operating Costs and Expenses (Excluding D&A and impairment of PP&E and intangible assets) totaled Ps. 529,386 million in 2022, a decrease of Ps. 41,379 million in real terms, or 7.2% compared to 2021.

This costs and expenses reduction was mainly the result of lower costs related to revenues: programming and content costs, taxes and fees with the regulatory authority and cost of equipment and handsets; as well as savings in other costs: fees for services, maintenance, materials and supplies, interconnection and transmission costs, other operating income and expense, and commissions and advertising costs, partially offset by higher severance payments and higher bad debt expenses. More than 99.8% of the costs and expenses are related to Telecom Argentina operations.

EBITDA reached Ps. 199,796 million in 2022, a decrease of 22.6% in real terms from Ps. 258,066 million reported for 2021, mainly driven by lower revenues, partially offset by lower operating costs.

Depreciation, amortization and impairment of PP&E, intangible assets and rights-of-use amounted to Ps. 456,124 million in 2022, an increase of 72.8% in real terms compared to 2021. Given Argentina's complex macroeconomic situation, our subsidiary Telecom - and therefore the Company- identified the need to revise the recoverable value estimation made of the goodwill assets assigned to the Cash-Generating Units (CGU) of Argentina. The analysis brought to conclusion that the accounting value of the CGU was higher than its

recuperable value as of September 30, 2022. Consequently, the Company registered an impairment of the goodwill asset of which amounts to Ps. 204,744 million in constant currency as of December 31, 2022.

Equity in earnings from unconsolidated affiliates totaled Ps. 819 million in 2022, compared to Ps. 769 million in 2021.

Financial Results net totaled Ps. 60,261 million as of 2022, compared to Ps. 90,076 million in 2021, mainly as a result of lower positive FX differences and negative results of operations with securities and bonds, partially offset by higher positive inflation adjustments results and lower debt interest costs.

Income tax as of December 31, 2022 reached Ps. 26,491 million, from Ps. (64,909) million in December 2021.

Net Loss for the period totaled Ps. 168,757 million in 2022, compared to a net income of Ps. 19,970 million reported for the same period of 2021. The Equity Shareholders net loss for the period amounted to Ps. 100,704 million.

CAPITAL EXPENDITURE (CAPEX)

During the 2022, our subsidiary, Telecom Argentina, invested Ps. 147,266 million, a decrease of 27.1% compared to 2021. The investments were focused on projects related to:

- Extension of the transmission networks to unify the different access technologies, changing the copper fixed networks into fiber or hybrid fiber-coaxial networks,
- The deployment of networks with FTTH (Fiber to the home) technologies, substantially improving the possibility to offer high speed services,
- Deployment of 4G coverage and capacity to support growth and a higher quality of the Mobile Internet service,
- The expansion of the 5G network in some of the country's main cities.

In relative terms, investments reached 20.2% of consolidated revenues in 2022.

DEBT AND LIQUIDITY

Short Term and Long-Term Debt			
Current Financial Debt	134,361	126,361	6.3%
