

12 April 2023

**CleanTech Lithium PLC ("CleanTech Lithium", "CTL" or the "Company")
April - May 2023 Investor Events Schedule**

CleanTech Lithium PLC (AIM:CTL, Frankfurt:T2N, OTC:CTLHF), exploration and development company advancing the next generation of sustainable lithium projects in Chile, announces that it is attending and presenting at the following investor/industry events during April and May 2023. The programme below includes new events since the previously announced Preliminary Events Schedule announced on 20.01.23.

These events form part of the Company's wider IR programme for 2023, as CleanTech Lithium continues to progress its projects in Chile towards the production of battery grade 'green' lithium, through Direction Lithium Extraction ("DLE").

Date	Event	Location
15 April 2023	Master Investor Show https://events.masterinvestor.co.uk/	London, UK Business Design Centre in Islington, 52 Upper Street, London N1 0QH
17 April 2023	CESCO, Mining Exploration Forum https://www.cesco.cl/cesco-week-santiago-en/	Santiago, Chile DoubleTree by Hilton Santiago
20 April 2023	Battery Tech Expo https://www.batterytechexpo.co.uk/	Silverstone, UK The Wing, Silverstone Circuit, NN12 8TN
25-26 April 2023	Mines and Money Connect https://minesandmoney.com/connect/index	London, UK County Hall, Belvedere Road, London, SE1 7PB
5-6 May 2023	Deutsche Goldmesse, Mining Conference https://deutschegoldmesse.online/	Frankfurt, Germany The Westin Grand, Frankfurt
10-12 May 2023	Canaccord Genuity, Global Metals & Mining Conference	Palm Springs, California
10-12 May 2023	Sustainable Mining Conference https://gecamin.com/sustainablemining/	Santiago, Chile Sheraton Hotel, Santiago
13 May 2023	UK Investor Show https://ukinvestor.com/	London, U.K. QEII Centre, Westminster London, SW1P 3EE
24-26 May 2023	Swiss Mining Institute, Virtual Conference https://swissmininginstitute.ch/	Virtual

Notes

CleanTech Lithium (AIM:CTLFrankfurt:T2N, OTC:CTLHF) is an exploration and development company, advancing the next generation of sustainable lithium projects in Chile. Proudly sustainable, committed to net-zero, our mission is to produce material quantities of battery grade, carbon-neutral lithium using sustainable Direct Lithium Extraction technology, powered by clean energy, we plan to be the greenest lithium supplier to the EV market.

CleanTech Lithium has three prospective lithium projects - Laguna Verde, Francisco Basin and Llamara - located in the lithium triangle, the world's centre for battery grade lithium production. The Laguna Verde and Francisco Basin projects are situated within basins entirely controlled by the Company, which affords significant potential development and operational advantages. Llamara is the Company's latest greenfield project, which offers material potential upside at a low initial cost. All three projects have direct access to excellent infrastructure and renewable power.

CleanTech Lithium is committed to using renewable power for processing and reducing the environmental impact of its lithium production by utilising Direct Lithium Extraction. Direct Lithium Extraction is a transformative technology which removes lithium from brine, with higher recoveries and purities. The method offers short development lead times, low upfront capex, with no extensive site construction and no evaporation pond development so there is no water depletion from the aquifer or harm to the local environment.
