Notes to Editors:

Oriole Resources PLC is an AIM-listed gold exploration company, operating in West Africa. It is focussed on early-stage exploration in Cameroon, where the Company has a maiden Resource of 305,000 oz Au in the JORC Inferred category at the Bibemi project and has identified multi-kilometre gold and lithium anomalism within the district-scale Central Licence Package project. At the more advanced Senala gold project in Senegal, Oriole was advised by IAMGOLD on 26 April 2023 that AGEM Senegal Exploration Suarl ('AGEM') was now a wholly-owned subsidiary of Managem Group. As previously announced, AGEM has earned an initial 51% beneficial interest by spending US\$4 million and has the option to spend up to a further US\$4 million by 28 February 2024 to earn a further 19% interest. Reverse Circulation drilling is planned as part of AGEM's Year 6 programme at Senala. The Company also has several interests and royalties in companies operating in East Africa and Turkey that could deliver future cash flow.
