

6 July 2023

UniVision Engineering Limited
("UniVision" or the "Company" or the "Group")
Response to Share Price Movement

UniVision (AIM: UVEL), the Hong Kong based Group whose principal activities are the supply, design, installation and maintenance of closed-circuit television and surveillance systems, and the sale of security related products, announces that other than its recent restoration of trading on AIM after the publication of its Half Year Report on 19 June 2023, the Group is not aware of any material commercial or operational reason for the significant increase in its share price.

As announced in the Half Year Report, the Company remains in negotiations with potential investors who are looking to make a substantial investment in the Company. The Board believes that with the support of these potential investors, the Company will be able to strengthen its financial and technical position to allow the business to replace the lost contract and grow the business in the future.

Further announcements in respect of this will be made as appropriate.
