RA INTERNATIONAL GROUP PLC
("RA International", "RA" or the "Group")

New contract award

Minimum two-year global framework agreement with the FCDO

RA International Group PLC (AIM: RAI), a specialist provider of complex and integrated remote site services to organisations globally, is pleased to announce the award of a strategically significant new contract with the UK's Foreign, Commonwealth and Development Office (FCDO). The minimum two-year global framework agreement will see RA provide operational support capability funded through the [Conflict, Stability and Security Fund](#) (CSSF), commencing 18 September 2023.

The services which RA will most likely provide will be funded from a sub-lot allocated to the CSSF valued, in aggregate, at a maximum of GBP 375m (over 2 years). They relate to "providing and delivering operational and technical equipment to organisations in hostile environments in a Human Rights compliant manner", and include the following sub-themes:

- Responsible provision of non-lethal aid and equipment (e.g. vehicles, tents, food, medicines etc.) into hostile environments;
- Provision of advice on administrative, logistics and human resource reform to organisations operating in hostile environments, with a view of improving working practices;
- UK and international military protocols, structures and practice in third party conflicts; and
- Delivery in combined civilian and military environments and operations and an appreciation of issues such as humanitarian space.

The value, timing and location of future orders received by RA will be dependent upon the UK Government's priorities and needs over the period of the framework agreement. Scoring the highest out of 27 awardees, we look forward to participating in task orders and future work and expect the contract to be material to RA's existing revenue base.

Soraya Narfeldt, CEO of RA International, commented: "This latest contract solidifies our relationships with the UK MOD and FCDO further, following awards with the MOD OSCC in 2022 and FCDO earlier this year, and cements our Group strategy. Our global reach, ability to mobilise quickly and self-perform, and our track record in delivering critical projects in environments where our clients are often faced with extreme political or operational constraints were key factors in our success in gaining a seat on the CSSF framework."
