

20 September 2023

**Hercules Site Services plc**  
("Hercules" or "the Company")  
**Civils Projects Division Update**

Hercules Site Services plc (AIM: HERC), a leading technology enabled labour supply company for the UK infrastructure sector, is pleased to announce that its Civils Projects division has been awarded contracts with a combined value of over £3.1 million since 1 May 2023 to deliver critical work for two major clients relating to nine wastewater treatment and water management projects.

The Civils Projects division has particular expertise in executing projects in this sector and experienced a busy summer as UK water companies face mounting pressure to increase the country's water resilience.

As announced in the Company's interim results, revenue for the division in H1 increased by 30% to £6.7m during the six months to 31 March 2023 (H1 2022: £5.1m). The Company's Civils Projects team provides substantial opportunity for Hercules to cross-sell its labour supply and suction excavator services to blue chip clients.

The contracts are divided as follows:

- £2.28 million awarded from Thames Water across six sites, the largest contract being at Upton Nervet WTW in West Berkshire.
- £895,000 awarded from Anglian Water across three sites, the largest contract being at Towcester in Northamptonshire.

**Paul Field, Construction Director, commented:** "H2 2023 kicked off to a busy start and the team's extensive experience in the water sector has enabled us to secure a significant portfolio of work as companies in this space focus on resolving a range of well-documented issues.

"With UK water companies pledging to invest £10bn for the next seven years to 2030, we are well positioned to meet increasing demand for our specialist services, while also contributing to a cleaner, safer infrastructure network."

**Change of Name of Joint Broker**

The Company also announces that its Joint Broker has changed its name to Cavendish Securities plc following completion of its own corporate merger.
