Interim Results for the Period Ended 30 June 2023 and Trading Update

DP Poland, the operator of Domino's pizza stores and restaurants across Poland and Croatia, is pleased to announce its unaudited results for the six months ended 30 June 2023.

Unaudited Financial Information

<i>Currency: £000</i>	H1 2023	H1 2022	% change
Group System Sales	21,386	17,098	25.1%
Group Revenue	20,960	16,575	26.5%
EBITDA*	1,051	388	171.2%
EBITDA*(Pre-IFRS 16)	(720)	(1,130)	36.3%
EBITDA margin %	5.02%	2.34%	
Loss for the period	(1,592)	(2,200)	27.6%

* excluding non-cash items, non-recurring items and store pre-opening expenses

Financial highlights

- Overall Group revenue increased by 26.5% to £21.0m (H1 2022: £16.6m), including Croatia.
- Poland revenue increased by 21.0% to £20.1m (H1 2022: £16.6m)
- Group system sales were up 25.1% to £21.4m including Croatia (H1 2022: £17.1m)
- Poland system sales increased by 14.9% to PLN 108.1m (H1 2022: PLN 94.1m)
 - Strong Poland LFL revenue growth of 18.0% in H1 2023 compared to H1 2022 driven by increased order count (11.3%) and average ticket price (5.8%)
 - Growth of delivery and non-delivery Poland LFL System Sales of 15.8% and 22.6%, respectively, compared to prior period
- Group EBITDA increased by 171.2% to £1.1m (H1 2022: £0.4m)
- Group loss before tax improved from £(2.2)m for H1 2022 to £(1.6)m for H1 2023
- Cash at bank of £2.7m as at 30 June 2023 (£1.7m as at 30 June 2022)

Operational highlights

- The Group operated 116 stores at the end of June 2023, including 112 Domino's Pizza stores across Poland and 4 across Croatia
- One new store was opened in Poland and one in Croatia in the first half of 2023. At the same time, four ex-Dominium stores have been upgraded to Domino's standards and two stores were closed as part of the store network optimisation plan
- Average delivery times reduced by 13.0% in H1 2023 (vs H1 2022), resulting in improved Net Promoter Scores and customer satisfaction
- Further development of digital capabilities
- Mitigating actions were taken in H1 to reduce the impact of inflationary pressures particularly in food and energy which have now begun to ease, however, labour inflationary pressures have remained

Nils Gornall, CEO, commented:

"H1 2023 saw the company move into positive store EBITDA and I am confident that we can build on this in the second half of the year. Delivery times are coming down, which are driving improved customer satisfaction and increased orders which

are now regularly exceeding 700 orders per store per week. Driving order count higher is our prime objective in the second half as this is a key driver of consistent and improved profitability.

The results we have achieved position the Company firmly for ongoing market share expansion. This growth will be fueled by continued operational excellence, enhancing our digital solutions for customer orders and internal processes, and maintaining an unwavering commitment to our customer value proposition. We anticipate that these efforts will lead to the creation of new sales records for the Company, and continued improvement in EBITDA".

Post period end trading update

Polish trading remains strong with double digit sales and order count LFL growth. In July and August, Polish LFL sales grew by 10.6% and 17.3%, respectively, compared to 2022, with the growth split evenly between sales channels. Performance in the first half of September has so far been strong.

In the year to August 2023, the Polish market has seen double-digit revenue growth compared to 2022:

- 16.9% increase in LFL System Sales
 - 18.9% LFL non-delivery revenue growth
 - 15.7% LFL delivery revenue growth
- 12.3% increase in total System Sales, despite a reduction of 8 store locations vs 2022

The Croatian market has been impacted by inflationary pressures and consumers enjoying the summer on the coast where we are not currently present. This resulted in LFL sales growth in July and August of (14.0%) and 0.1%, respectively, compared to 2022. Overall, the addition of one new store resulted in system sales growth of 10.9% and 25.5% in July and August, respectively, versus the prior year.

In the year to August 2023, Croatia grew system sales 35.9% and LFL sales 4.4% with the prospects for September and the rest of the year looking encouraging.

We expect to deliver a solid performance for the Group in Q3 and to be in line with expectations for Q4. In the coming months, we expect to open another two stores in Poland and one store in Croatia, further improve our cost position through additional cost saving initiatives and driving market share.

Investor Presentation

The Company is pleased to announce that Nils Gomall and Edward Kacyrz will provide a live presentation relating to the Interim Results via Investor Meet Company on 27th Sep 2023 at 3:00pm BST.

The presentation is open to all existing and potential shareholders. Questions can be submitted pre-event via your Investor Meet Company dashboard up until 9am the day before the meeting or at any time during the live presentation.

Investors can sign up to Investor Meet Company for free and add to meet DP POLAND PLC via:

<https://www.investormeetcompany.com/dp-poland-plc/register-investor>

Investors who already follow DP Poland plc on the Investor Meet Company platform will automatically be invited.

Notes for editors

About DP Poland plc

DP Poland, has the exclusive right to develop, operate and sub-franchise Domino's Pizza stores in Poland and Croatia. The group operates 116 stores and restaurants throughout cities and towns in Poland and Croatia.

Chief Executive Officer's Review

After twelve months of leading DP Poland plc, it is a great pleasure to share with you insights to visibly improving performance of the Company, which prove that the proposed transformation strategy for the Company is working, despite challenging market conditions, predominantly related to inflationary pressures visible in food, labour and utility cost.

I feel confident that current results and Company setup build strong foundations for further Company growth. Supported by an energised team, we will enter into the second stage of our transformation plan, concentrating on further company expansion and transition towards a franchisee model, which allows us to capitalise on the opportunity to grow market share and sales volumes under our High-Volume Mentality.

Store performance

The Company has seen strong top line performance in the first six months of 2023, recording 18.0% and 10.2% LFL system sales growth in Poland and Croatia, respectively, compared to the prior year. At the same time, Company total system sales grew by more than 25% year-on-year, driven by the third store opening in Croatia and store network optimization in Poland. The sales growth vs. prior year was achieved through a combination of (i) 11.3% growth in order count in Poland; (ii) continued simultaneous dynamic growth in both delivery and non-delivery channels, and (iii) improved product quality and reduced delivery times in both markets.

In Poland, a Q1'23 TV campaign targeting the carry-out offering helped deliver a 22.6% year-on-year growth, and delivery sales continued growing at double-digits, delivering a 15.8% year-on-year growth.

In Croatia, the transition of the Croatian currency from the Kuna to the Euro at the beginning of 2023 contributed to weaker sales in January, whilst also impacting higher inflation. However, the market returned to strong double-digit LFL sales growth from February, delivering 10.2% year-on-year growth in H1 and average weekly order count per store exceeded 1,100, which sets an aspirational benchmark for the Polish market.

Value for money

In the current trading environment, our focus on providing the consumer with the best value-for-money is essential for building market share and, thus, our strong value message together with delivery promise is key to success.

We aim to attract and retain new consumers with a strong pipeline of promotions, new pizzas and sides to increase frequency of purchase. We started the year with the compelling offer for carry-out and delivery, medium pizzas for 19.99PLN and 24.99PLN, respectively. This drew new customers to Domino's, a key factor in the ongoing sales momentum we've experienced this year. In the second quarter, we focused on product quality and our menu offering by upgrading recipes with additional ingredients, launching new menus purely dedicated for the dine-in channel as well as implementing one-topping pizzas with the entry price points at 17.99PLN for a medium pizza. Our promotions have proved successful with consumers and the changes made in the portfolio mix have started contributing positively to the Company performance.

In H1 2023 we continued to improve on the pizza delivery process, adding eBikes and rejuvenating our scooter fleet, which allowed us to substantially shorten our delivery times by 13% year-on-year to around 25 minutes. As a direct result of these initiatives, we have seen an improving Net Promoter Score. Although our delivery times are already at the European average for Dominos stores in the coming year we are introducing GPS technologies to improve driver route planning to further reduce delivery times to 22 minutes.

Input cost inflation and mitigating action

High inflation in labour, energy and food costs over the last two years has had an adverse implication on the restaurant sector in the region. In Q2 2023, high inflation in energy and food have started to abate, however, labour rates are still under inflationary pressures.

In the first half of the year, we have worked hard to mitigate against these inflationary pressures through renegotiating supply chain contracts and reducing distribution costs to our stores. Additionally, we have improved labour efficiency by implementing the 'Tanda' scheduling system across our entire store network, which resulted in visible labour costs reduction and allowed us to remain competitive on our pizza prices. These actions have made our Company much more resistant to economic fluctuations and put us in a strong position to grow market share.

We expect to further improve our cost position in the second half of the year through additional cost saving initiatives.

Digital

In the past six months, we've witnessed a substantial leap in our digital capabilities. The Company has focused on further development of the mobile app and improvements in the webpage layout to enhance the consumer experience at every touchpoint with Domino's. This has resulted in a faster ordering process and higher basket values. Overall sales growth through the mobile app almost quadrupled year-on-year and app downloads have doubled. Additionally, customers' consents for text messages have grown 20% and consents for email marketing have grown 44%. Digital orders now account for 89% of all delivery orders and we are well on our way to our 90% target. Towards the end of the year, we plan to launch a dine-in self-ordering solution via mobile app and trial self-ordering kiosks for carry-out and dine-in customers.

At the beginning of 2023 we upgraded our ERP system bringing us closer towards a paperless organisation. This change has been followed with the introduction of a digital approval process (Q2 2023), and in the coming months will be supplemented with automatic bookings and cash reconciliation processes - all for the purpose of simplified and integrated accounting and controlling.

Outlook

We have made a strong start to the second half of the year and expect to see a continued improvement in profitability as we grow our sales. We are confident that the drive for order growth and network expansion is the key to success and will soon bring us to a pre-IFRS 16 positive EBITDA.

The improvement of business profitability and positive cash flow is the prime goal for the entire team. Demonstrating consistently profitable stores will enable us to move to the second stage of planned transformation and accelerate the growth of our stores' portfolio using the franchise model to become the market leader in Poland over the next 3-5 years with 250+ stores.

Notes to the Financial Statements

for 6 months to 30.06.2023

1 Basis of preparation

These condensed interim financial statements are unaudited and do not constitute statutory accounts within the meaning of the Companies Act 2006. These condensed interim financial statements have been prepared in accordance with IAS 34 'Interim Financial Reporting' and were approved on behalf of the Board by the Chairman David Wild.

The accounting policies and methods of computation applied in these condensed interim financial statements are consistent with those applied in the Group's most recent annual financial statements for the year ended 31 December 2022.

The financial statements for the year ended 31 December 2022, which were prepared in accordance with UK-adopted international accounting standards, IFRIC Interpretations and the Companies Act 2006 have been delivered to the Registrar of Companies. The auditors' opinion on those financial statements was unqualified and did not contain a statement made under s498(2) or (3) of the Companies Act 2006.

Copies of these condensed interim financial statements and the Group's most recent annual financial statements are available on request by writing to the Company Secretary at our registered office DP Poland plc, One Chamberlain Square, Birmingham, B3 3AX, United Kingdom, or from our website www.dppoland.com

2 Revenue

	<i>Unaudited</i> 6 months to 30.06.2023	<i>Unaudited</i> 6 months to 30.06.2022	<i>Audited</i> Year to 31.12.2022
	£	£	£
Core revenue	20,959,825	16,575,350	35,693,133
Other revenue	-	-	965
	<u>20,959,825</u>	<u>16,575,350</u>	<u>35,694,098</u>

Core revenues are ongoing revenues including sales to the public from corporate stores, sales of materials and services to sub-franchisees, royalties received from sub-franchisees and rents received from sub-franchisees. Other revenues are non-recurring transactions such as the sale of stores, fittings and equipment to sub-franchisees.

4 Earnings per ordinary share

The loss per ordinary share has been calculated as follows:

	<i>Unaudited</i> 6 months to 30.06.2023	<i>Unaudited</i> 6 months to 30.06.2022	<i>Audited</i> Year to 31.12.2022
	£	£	£
Profit / (loss) after tax (£)	(1,591,985)	(2,199,935)	(4,359,945)
Weighted average number of shares in issue (excluding EBT held shares)	710,642,415	578,123,216	653,776,085
Basic and diluted earnings per share (pence)	<u>(0.22 p)</u>	<u>(0.38 p)</u>	<u>(0.67 p)</u>

The weighted average number of shares for the period excludes those shares in the Company held by the employee benefit trust. At 30 June 2023 the basic and diluted loss per share is the same, because the vesting of share awards would reduce the loss per share and is, therefore, anti-dilutive.

5 Principal risks and uncertainties

The principal risks and uncertainties facing the Group are disclosed in the Group's financial statements for the year ended 31 December 2022, available from www.dppoland.com and remain unchanged.
