Octopus Titan VCT plc (the 'Company') announces that 493,037 Ordinary Shares of 0.1p each were issued and allotted on 12 October 2023 at a price of 68.2p per share equivalent to the current NAV.

These shares were issued to those investors who, in accordance with the adviser charging terms contained in each fundraising document offered to the public and published since 31 December 2012 following the introduction of the Retail Distribution Review, had chosen to pay their adviser less than the 0.5% ongoing adviser charge. An application for the shares to be admitted to the Official List of the Financial Conduct Authority and to trading on the London Stock Exchange's main market for listed securities has been made and dealings are expected to commence on or around 26 October 2023.

The issued share capital and total voting rights of the Company are now 1,548,290,324. This figure may be used by shareholders in the Company as the denominator for the calculations by which they will determine if they are required to notify their interest in, or a change in their interest in, the share capital of the Company under the FCA's Disclosure Guidance and Transparency Rules.
