About Tirupati Graphite

Tirupati Graphite Plc is a specialist Graphite producer and a supplier of critical minerals for a decarbonised economy and the energy transition. The Company places a special emphasis on green applications, including renewable energy, e-mobility, energy storage, and thermal management, and is committed to ensuring its operations are Sustainable.

The Company's operations include primary mining and processing in Madagascar, where the Company operates two key projects, Sahamamy and Vatomina with a combined 30,000 tpa currently installed capacity, producing high-quality Flake Graphite concentrate with up to 97% purity and selling to customers globally.

The Company has also acquired two advanced stage, and world class, natural Graphite projects in Mozambique, and has commenced work to optimise the economics for development of the construction initiated Montepuez project, which is permitted for 100,000tpa.

communication, and to share such analysis on an anonymised basis with others as part of our commercial services. For further information about how RNS and the London Stock Exchange use the personal data you provide us, please see our [Privacy Policy](#).
