Notes to Editors:

Transense is a developer of specialist wireless sensor systems used to enable real-time data gathering and monitoring. Products include the patent protected Surface Acoustic Wave (SAW) sensor technology, used to improve equipment power, performance, reliability and efficiency; iTrack, Transense's Tyre Pressure Monitoring System, licensed to Bridgestone Corporation, the world's largest tyre producer, under a ten-year deal in June 2020; and a range of intelligent tyre monitoring equipment under the Translogik brand. Target sectors include aerospace, automotive (high performance and off-road) and complex machine control.

The Group's strategy is to maximise shareholder value through the delivery of sustained revenue growth from all three principal technologies - SAW, iTrack and Translogik probes - through leveraging excellence in innovation, know-how in commercialising technologies, industry partnerships and exposure to global growth markets.

Transense is headquartered in Oxfordshire, UK, and was admitted to trading on AIM, a market operated by the London Stock Exchange (AIM: TRT), in 1999. www.transense.com
