Half Year Trading Statement

Notice of Interim Results and Investor Presentation

Ten consecutive quarters of growth in lending book; significant increases in revenues and profits

Time Finance plc, the AIM listed independent specialist finance provider, is pleased to provide a trading update in respect of the Group's performance for the six-months ended 30 November 2023 ("H1 2023/24"). This update is in advance of the scheduled release of the Group's full H1 2023/24 unaudited Interim Results on 25 January 2023.

H1 2023/24 Highlights

- Own-Book lending origination of £47.2m, an increase of 29% (H1 2022/23: £36.6m)
- Lending-book continuing to grow, increasing 11% to £188.5m since financial year-end (31 May 2023: £170.1m) and 23% from the same date 12 months prior (30 November 2022: £152.7m)
- Revenue of £15.7m, an increase of 19% (H1 2022/23: £13.2m)
- Profit before Tax of £2.7m, an increase of 35% (H1 2022/23: £2.0m)
- Net Arrears remain stable at 6% of the lending book (31 May 2023: 6%; 30 November 2022: 6%)
- Net Tangible Assets continue to increase - up 6% to £36.4m since financial year-end (31 May 2023: £34.2m) and 13% from 12 months prior (30 November 2022: £32.1m)
- Continuing positive trading momentum, leading to expectation of Group trading for the full year to be at least in line with recently upgraded market guidance

The increase in revenue is attributable to the compounding effect of continued growth in the size of the lending book. As a key element of the Company's four-year strategic plan from June 2021 to May 2025, the increased size of the lending book is driven by Invoice Finance and the 'Hard' subset of Asset Finance. These two products, being typically larger ticket and more secured in nature, have accounted for approximately 80% of new deal volume originated in H1 2023/24, and make up over 70% of the total lending book as at 30 November 2023.

Ed Rimmer, Chief Executive Officer commented:

"The Board and I are very encouraged by performance in the first half of the current financial year. In line with our strategy, we have continued to increase the size of our lending book and, crucially, have done so without compromising on quality, as borne out by the stable nature of our arrears. This approach has led to increased revenues and profitability. We now have real confidence that the Group is very well placed to continue on this growth trajectory, building long-term value for our shareholders."
