

5 February 2024

**Clean Power Hydrogen plc
("CPH2", the "Company" or the "Group")**

ISO Certifications

Clean Power Hydrogen plc (AIM: CPH2), the UK-based green hydrogen technology and manufacturing group that has developed the IP-protected Membrane-Free Electrolyser ("MFE"), is pleased to announce that it has been awarded three ISO certifications for Occupational Health and Safety (ISO 45001), Environmental Management Systems (ISO 14001) and Quality Management Systems (ISO 9001).

ISO 45001 is an internationally recognised standard that ensures the highest quality of health and safety. To receive certification, organisations must demonstrate that they have the policies, practises and procedures in place to prevent workplace accidents and injuries, creating a safe and healthy working environment for their employees.

ISO 14001 is a recognised standard for environmental management systems. This award demonstrates that CPH2 is taking proactive measures to minimise the Company's environmental footprint, comply with relevant legal requirements, and achieve our environmental objectives.

ISO 9001 is a recognised standard for quality management, reflecting CPH2's ability to consistently provide products and services that meet customer and regulatory requirements.

Jon Duffy, CEO of Clean Power Hydrogen commented:

"These certificates are incredibly important for everyone at CPH2 and confirm our commitment to the highest standards of health and safety, sustainability and quality management measures within our organisation. As we continue to advance towards product commercialisation, we ensure that every crucial step is taken to make sure our systems are effective and our employees are protected. The awards are also testament to CPH2's dedication to a sustainable future, blending environmental responsibility with strategic business growth".

Overview of CPH2

CPH2 is the holding company of Clean Power Hydrogen Group Limited ("Clean Power") which has almost a decade of dedicated research and product development experience. This experience has resulted in the creation of simple, safe and sustainable technology which is designed to deliver a modular solution to the hydrogen production market in a cost-effective, scalable, reliable and long-lasting manner. The Group's strategic objective is to deliver the lowest

LCOH in the market in relation to the production of green hydrogen. The Group's MFE technology is already commercially available and demonstrating cost efficiencies and technological advantages. CPH2 is listed on the AIM market and trades under the ticker LON:CPH2.
