

INTERIM RESULTS FOR THE SIX MONTHS TO 31 DECEMBER 2023

FW Thorpe Plc - a group of companies that design, manufacture and supply professional lighting systems - is pleased to announce its interim results for the six months ended 31 December 2023.

Financial highlights:

	Interim 2024 (unaudited)	Interim 2023 (unaudited)	
Revenue	£82.6m	£81.9m	+1%
Operating profit (before acquisition adjustments)*	£12.3m	£12.6m	-2%
Operating profit	£11.2m	£11.0m	+2%
Profit before tax	£10.7m	£10.6m	+1%
Basic earnings per share	7.31p	7.15p	+2%

*Acquisition adjustments include amortisation of intangible assets.

- Interim dividend 1.70p (Interim 2023: 1.62p) - 4.9% increase
- Steady performance during the period, supported by, margin improvements at Thorlux and Lightronics
- Zemper improved export revenues to France and Belgium
- Other UK companies showing marginal improvement overall
- Net cash generated from operating activities - £14.0m (Interim 2023: £9.9m)

Note: This announcement contains inside information for the purposes of Article 7 of Regulation 596/2014 (MAR).

CHAIRMAN'S INTERIM STATEMENT

Results for the half year are in line with the expectations given in the Group's November trading update, overall performance being broadly level with last year's. It seems that customers finished for Christmas very early: December was particularly slow across all parts of the Group, thus suppressing results at the half year point when compared with the prior year. I am pleased to say that trading bounced back with a vengeance in January, giving the Group a good start for its run-in to the full year.

Raw material costs, the Group's largest costs, are showing welcome reductions, whilst inflationary pressure on wages and salaries remains. The Group is experiencing some issues with rising shipping costs again and some minor supply delays due to the situation in the Red Sea region. The Group has, overall, managed these inflationary pressures well, with Group operating margins maintained; Thorlux and Lightronics, in particular, show margin

improvements. Stock has continued to be reduced in a carefully controlled way whilst good stock levels are maintained for strategically important items.

In Spring 2024, some interesting patent-applied-for products are being launched. These new products have a unique approach to sustainability, being 3D machined from oak which is harvested from sustainable European forests. (Hopefully, one day, the Group will be able to use its own wood from its sustainable forests.) The Portland traffic range has started to gather traction following receipt of some sizeable first orders. Group product synergy initiatives have advanced, and the Group's first shared technology emergency range, designed and manufactured by Zemper, is due for launch this summer. In recent weeks, Ratio sales in the UK have started to gather some momentum, especially for the IO7 illuminated post; however, the UK and the Netherlands are loss making in these early days whilst investment is made in improved technology to satisfy market requirements.

The road to Net Zero continues, and the Group's short and long term objectives are currently being assessed by a third party, the Science Based Targets initiative (SBTi). The Group's internal programme of improvement continues, and an investment of around £300k has been made, at Solite, to trial a new concept of powder coating using electricity for heating the oven, with only intermittent boosting from the gas supply when required. Powder coating facilities across the Group are extensive, so the Board will watch this trial with interest; big reductions in CO₂ are forecast, due to reduced gas usage in favour of solar-produced or sustainable electricity. The £2m woodland investment in Longtown, Hereford, UK, has completed, and plans and planning applications are progressing to allow the next phase of the Group's carbon offsetting activity, which will ultimately facilitate the planting of a further 130,000-plus trees. As the Group hopes to continually reduce its carbon emissions, it expects this scheme's planting capacity to last for a decade, and hopefully much more.

As a result of ongoing performance and the strong balance sheet, the Board has approved a dividend of 1.70p (interim 2023: 1.62p) for the six months to 31 December 2023, being an increase of 4.9%.

At the time of writing, the general order book and revenue for the Group as a whole are good. Within the Group, therefore, we look forward to an improved situation at the year end, providing there are no sudden changes to the economic outlook.

Mike Allcock
Chairman
14 March 2024
FW Thorpe Plc

Cash and cash equivalents at the end of the period	31,295	21,104	35,013

Notes to the Interim Financial Statements

1. Basis of preparation

The consolidated interim financial statements for the six months to 31 December 2023 have been prepared in accordance with the AIM Rules for Companies, UK adopted International Accounting Standards and with the requirements of the Companies Act 2006 as applicable to companies reporting under those standards, with future changes being subject to endorsement by the UK Endorsement Board.

The figures for the period to 31 December 2023 and the comparative period to 31 December 2022 have not been audited or reviewed and are therefore disclosed as unaudited. The figures for 30 June 2023 have been extracted from the financial statements for the year to 30 June 2023, which have been delivered to the Registrar of Companies. The interim financial statements do not constitute statutory accounts within the meaning of the Companies Act 2006.

The financial statements are presented in Pounds Sterling, rounded to the nearest thousand.

The interim financial statements are prepared under the historical cost convention, modified by the revaluation of certain current and non-current investments at fair value through profit or loss and through other comprehensive income.

The accounting policies set out in the financial statements for the year ended 30 June 2023 have been applied consistently throughout the Group during the period.

2. Segmental analysis

The segmental analysis is presented on the same basis as that used for internal reporting purposes. For internal reporting FW Thorpe is organised into twelve operating segments, based on the products and customer base in the lighting market - the largest business is Thorlux, which manufactures professional lighting systems for the industrial, commercial and controls markets. The businesses of SchahlLED and Thorlux Lighting Limited are included in this segment in accordance with the Group's internal reporting. The businesses in the Netherlands, Lightronics and Famostar, are material subsidiaries and disclosed separately as Netherlands companies. The businesses in the Zemper Group are also material and disclosed separately as Zemper Group.

The seven remaining continuing operating segments have been aggregated into the "other companies" segment based on their size, comprising the entities Philip Payne Limited, Solite Europe Limited, Portland Lighting Limited, TRT Lighting Limited, Thorlux L.L.C, Thorlux Australasia PTY Limited and Thorlux Lighting GmbH.

FW Thorpe's chief operating decision-maker (CODM) is the Group Board. The Group Board reviews the Group's internal reporting in order to monitor and assess the performance of the operating segments for the purpose of making decisions about resources to be allocated. The CODM reviews the performance of the business by considering the key profit measure of operating profit, including the impact of associated contingent consideration arrangements, and considers that none of the other operating segments are of sufficient size and distinction to be reviewed separately when making Group wide strategic decisions. Assets and liabilities have not been segmented which is consistent with the Group's internal reporting.

Inter-segment adjustments to operating profit consist of property rentals on premises owned by FW Thorpe Plc, adjustments to profit related to stocks held within the Group that were supplied by another segment.

2. Segmental analysis (continued)

	Thorlux £'000	Netherlands Companies £'000	Zemper Group £'000	Other Companies £'000	Inter- Segment £'000	Total Continuing Operations £'000

Operating profit	17,246	6,969	1,898	1,131	588	27,832
Net finance expense						(378)
Share of profit of joint ventures						(520)
Profit before tax expense						26,934

Included in the Thorlux segment are additional revenues from SchahLED of £16.9m and operating profit of £1.4m. Acquisition adjustments includes amortisation for intangible assets.

3. Purchase of shares in subsidiaries

On 3 October 2023, the Group purchased a further 13.5% of the share capital of Electrozemper S.A. with a cash payment of £4.3m (€5.0m), as part of its commitment to acquire the remaining shares.

4. Earnings per share

The basic earnings per share is calculated on profit after taxation and the weighted average number of ordinary shares in issue of 117,237,021 (Interim 2023: 117,191,586) during the period.

The diluted earnings per share is calculated on profit after taxation and the weighted average number of potentially dilutive ordinary shares in issue of 117,306,123 (Interim 2023: 117,292,983) during the period.

5. Dividend

The interim dividend is at the rate of 1.70p per share (Interim 2023: 1.62p) and based on 117,271,586 shares in issue at the announcement date the dividend will amount to £1,994,000 (Interim 2023: £1,899,000). The interim dividend will be paid on 19 April 2024 to shareholders on the register at the close of business on 22 March 2024, and the shares become ex-dividend on 21 March 2024.

For the year ended 30 June 2023, a final dividend of 4.84p (2022: final 4.61p) per share amounting to £5,674,000 (2022: £5,403,000) was paid on 24 November 2023.

6. Availability of interim statement

Copies of the interim report are being sent to shareholders and will also be available from the company's registered office or on the company's website (www.fwthorpe.co.uk) from 26 March 2024.
