<sup>(4)</sup> Operating Income available to distribute comprises loan income recognised in the period less the cost of debt facilities utilised by the Group and operating costs incurred. It includes realised foreign exchange gains and losses that are available to distribute.

<sup>(5)</sup> Unrealised foreign exchange gain/losses relate to the net impact of changes in the valuation of foreign exchange hedges and the sterling equivalent value of Euro loan investments (using the applicable month end rate). Mismatches between the hedge valuations and the loan investments may occur depending on the shape of the forward FX curve and this causes some movement in the NAV. These unrealised FX gains / losses are not considered part of distributable reserves.
