About Tower Resources

Tower Resources plc is an AIM listed energy company building a balanced portfolio of energy opportunities in Africa across

the exploration and production cycle in oil and gas and beyond. The Company's current focus is on advancing its operations in Cameroon to deliver cash flow through short-cycle development and rapid production with long term upside, and de-risking attractive exploration licenses through acquiring 3D seismic data in the emerging oil and gas provinces of Namibia and South Africa, where world-class discoveries have recently been made.

Tower's strategy is centred around stable jurisdictions that the Company knows well and that offer excellent fiscal terms. Through its Directors, staff and strategic relationship with EPI Group, Tower has access to decades of expertise and experience in Cameroon and Namibia, and its joint venture with New Age builds on years of experience in South Africa.
