**About Oxford Metrics**

Oxford Metrics is a smart sensing and software company that enables the interface between the real world and its virtual twin. Our smart sensing technology helps over 10,000 customers in more than 70 countries, including all of the world's top 20 games companies and all of the top 20 universities worldwide. Founded in 1984, we started our journey in healthcare, expanded into entertainment, winning an OSCAR® and an Emmy®, moved into defence, engineering and smart manufacturing. We have a strong track record of creating value by incubating, growing and then augmenting through acquisition, unique technology businesses.

The Group trades through its market-leading division Vicon and, recently acquired, Industrial Vision Systems. Vicon is a world leader in motion measurement analysis to thousands of customers worldwide, including Red Bull, Imperial College London, Dreamscape Immersive, Industrial Light & Magic, and NASA. Industrial Vision Systems is a specialist in machine vision software and technology for high precision, automated quality control systems trusted by blue-chip, smart manufacturing companies across the globe including BD, DePuy, Jaguar Land Rover, Johnson & Johnson, Zytronic and Alkegen.

The Group is headquartered in Oxford with offices in California, Colorado, Auckland, and Kempten. Since 2001, Oxford Metrics (LSE: OMG), has been a quoted company listed on AIM, a market operated by the London Stock Exchange.
