Corero Network Security plc
("Corero", or "the Company")

Corero launches DDoS cloud-backup service powered by Akamai

Corero Network Security plc (AIM: CNS) (OTCQB: DDOSF), the specialists in distributed denial of service ("DDoS") protection solutions, today announced the launch of its Corero SmartWall ONE™ Hybrid Cloud DDoS Protection solution ("the Solution"), in partnership with Akamai Technologies ("Akamai"), one of Corero's key strategic technology partners.

This new cloud-based service expands Corero's existing product offerings, combining their on-premises solutions with Akamai's cloud capabilities, creating a robust, hybrid DDoS solution. The new DDoS cloud-backup service is designed to meet the growing needs of service providers seeking comprehensive, scalable cybersecurity solutions that combine the benefits of both on-prem and cloud-based protection.

This unique partnership equips businesses using Corero SmartWall ONE solutions with a scalable, top-tier DDoS cloud-backup service enhancing protection capabilities and delivering immediate operational benefits.

Ashley Stephenson, CTO, commented:

"Our strategic cooperation with Akamai, initiated last year, has been instrumental in reaching this important milestone.

Corero's customers are continually seeking more robust protection against DDoS attacks, while also aspiring to broaden their own security services. Adding the DDoS cloud-backup protection powered by Prolexic to our SmartWall ONE™ portfolio underlines our commitment to providing best-in-class solutions to our customers, whilst highlighting the strategic value of our ongoing partnership with Akamai."
