About Tirupati Graphite

Tirupati Graphite Plc is a specialist Graphite producer and a supplier of the critical mineral for a decarbonised economy and the energy transition. The Company places a special emphasis on green applications including renewable energy, e-mobility, energy storage and thermal management, and is committed to ensuring its operations are sustainable.

The Company's operations include primary mining and processing in Madagascar where the Company operates two key projects, Sahamamy and Vatomina with a combined 30,000 tpa of currently installed capacity, producing high-quality flake graphite concentrate with up to 97% purity and selling to customers globally.

The Company also holds two advanced stage, world class, natural graphite projects in Mozambique. Work has already commenced to optimise the economics for development of the Montepuez graphite project, which is permitted for 100,000tpa production and where substantial construction work has already been undertaken by the predecessor. A table of the Company's projects is provided below:

Country	Project	Stage
Madagascar	Sahamamy	In production: 18,000tpa capacity
Madagascar	Vatomina	In production: 12,000tpa capacity
Mozambique	Montepuez	100,000tpa permitted, development-initiated
Mozambique	Balama Central	58,000tpa permitted, development-ready
