Gulf Marine Services PLC
('Gulf Marine Services', 'GMS', 'the Company' or 'the Group')

Update to Previously Announced Contract

Gulf Marine Services, a leading provider of self-propelled and self-elevating support vessels for the offshore oil, gas and renewables sectors, is pleased to confirm that it has received and signed the second phase of the four-year contract originally announced on 11 March, 2024 for one of its vessels operating in the Middle East. Our backlog as of June 1st 2024 stands at \$431.2 million.

Mansour Al Alami, GMS Executive Chairman, commented:

"The signing of the second phase of this contract reaffirms the strong demand for our vessels and the trust our clients place in GMS. This continuation not only strengthens our backlog, but also positions us well to achieve our strategic goals and drive shareholder value."

Notes to Editors:

Gulf Marine Services PLC, a company listed on the London Stock Exchange, was founded in Abu Dhabi in 1977 and has become a world leading provider of advanced self-propelled self-elevating support vessels (SESVs). The fleet serves the oil, gas and renewable energy industries from its offices in the United Arab Emirates, Saudi Arabia and Qatar. The Group's assets are capable of serving clients' requirements across the globe, including those in the Middle East, South East Asia, West Africa, North America, the Gulf of Mexico and Europe.

The GMS fleet of 13 SESVs is amongst the youngest in the industry. The vessels support GMS's clients in a broad range of offshore oil and gas platform refurbishment and maintenance activities, well intervention work and offshore wind turbine maintenance work (which are opex-led activities), as well as offshore oil and gas platform installation and decommissioning and offshore wind turbine installation (which are capex-led activities).

The SESVs are categorised by size - K-Class (Small), S-Class (Mid) and E-Class (Large) - with these capable of operating in water depths of 45m to 80m depending on leg length. The vessels are four-legged and are self-propelled, which means they do not require tugs or similar support vessels for moves between locations in the field; this makes them significantly more cost-effective and time-efficient than conventional offshore support vessels without self propulsion. They have a large deck space, crane capacity and accommodation facilities (for up to 300 people) that can be adapted to the requirements of the Group's clients.
