Eurasia Mining Plc

Statement re Share Price Movement

Eurasia Mining Plc ("Eurasia" or the "Company"), the palladium, platinum, rhodium, iridium and gold mining company, notes the recent increase in the Company's share price and the online speculation regarding the Definitive Feasibility Study for the Monchetundra project in the Kola peninsula northwest Russia (the "Monchetundra DFS").

The Company wishes to reiterate that the Monchetundra DFS was completed in 2023 and whereas work has continued at site to keep the ground in good standing, there have been no material developments regarding the Monchetundra DFS since the Company's announcement of 3 July 2023.

The primary focus of the Company remains the possible sale of its Russian assets although, as ever, there can be no guarantee that Eurasia will enter into binding agreements regarding the sale.
