ABOUT BBB

Bigblu Broadband plc (AIM: BBB.L), is an in market leading provider of alternative superfast and ultrafast broadband solutions throughout Australia. BBB delivers a portfolio of superfast and ultrafast wireless broadband products for consumers and businesses.

High levels of recurring revenue, increasing economies of scale and Government stimulation of the alternative broadband market in many countries provide a solid foundation for significant organic growth as demand for alternative ultrafast broadband services increases around the world.

BBB's range of solutions includes satellite, GEO and LEO, next generation fixed wireless and 4G/5G FWA delivering between 30 Mbps and 500Mbps for consumers, and up to 1 Gbps for businesses. BBB provides customers with a full range of services including hardware supply, installation, pre-and post-sale support, billings, and collections, whilst offering appropriate tariffs depending on each end user's requirements.

Importantly, as its core technologies evolve, and more affordable capacity is made available, BBB continues to offer ever-increasing speeds and higher data throughputs to satisfy market demands for broadband services. BBB's alternative broadband offerings present a customer experience that is broadly similar to that offered by wired broadband and the connection can be shared in the normal way with PCs, tablets and smart phones.
