About Blackbird plc

Blackbird plc operates in the fast-growing SaaS and cloud video market. It has created Blackbird®, the world's most advanced suite of cloud-native computing applications for video all underpinned by its lightning fast codec. Blackbird plc's patented technology allows for frame accurate navigation, playback, viewing and editing in the cloud. Blackbird® enables multiple applications, which are used by rights holders, broadcasters, sports and news video specialists, live events and content owners, post production houses, other mass market digital video channels and corporations.

Since it is cloud-native, Blackbird® removes the need for costly, high-end workstations and can be used from almost anywhere on almost any device. It also allows full visibility on multi- location digital content, improves time to market for live content such as video clips and highlights for digital distribution, and ultimately results in much more effective monetisation. Blackbird plc is a licensor of its core video technology under its 'Powered by Blackbird' licensing model. Enabling video companies to accelerate their path to true cloud business models, licensees benefit from power and carbon reductions, cost and time savings, less hardware and bandwidth requirements and easy scalability. elevate.io, built using Blackbird core technology, is the company's next-generation SaaS product, a business

scalability. elevate.io, built using Blackbird core technology, is the company's new creator SaaS product, a browser based end-to-end content creation tool aimed at the Creator Economy.
