

9 July 2024

Zenova Group PLC
("Zenova", the "Company" or the "Group")

Order of £83k from new Sub-distributor in Albania

Zenova Group PLC (AIM: ZED) the innovative fire suppression and interdiction solutions Company, is pleased to announce that it has received a first order valued at £83,249.50 from its newly appointed sub-distributor in Albania - AED Ltd.

AED hosted a demonstration day in Tirana at a fire station on 9th May 2024 where all Zenova products were showcased to a large group comprised of local business leaders, fire services professionals and local government officials. As a result of the demand generated by the effectiveness displayed by Zenova's products, AED has placed this inaugural order.

This order consists of 7,500 units of the Zenova FX500 - the 500 ml aerosol extinguisher, 100 units of the Zenova FX 9L extinguisher and 50 units of the Zenova FX 6L extinguisher. This preliminary order is currently being shipped to Tirana for customers that have placed orders with AED.

Thomas Melchior, CEO of Zenova on the Group's first order in Albania. "This order, coming on the back of the very effective demonstration day we held last month, reflects the efficiency and power of our products to tackle the growing problems around the world, as well as a further endorsement of our strategic focus. I anticipate a growing volume of sales in the region in partnership with AED, and look forward to announcing further orders in the near future "

About Zenova Group PLC

The Group, through Zenova Ltd, is the holder of intellectual property that underpins a suite of fire safety and temperature management products and technology. The product range is applicable to industrial, commercial, and residential markets. The Group's products include fire retardant paints, insulating paints and render, fire extinguishing fluid and fire extinguishers. Through innovative development, and a refined formulation and development process, Zenova provides industry leading solutions across a range of fire protection and temperature management problems, comprising:

Zenova FP, fire protection paint

A water based, fire protection paint (also known as a 'thermofoaming' or 'intumescent' paint), which can be used on any surface and colour matched to any colour. When exposed to heat or flames, the paint expands and creates a solid foam-like crust which will not burn and insulates the surface it is painted on. This prevents surfaces from catching fire and stops fire spreading. It has been tested by global fire industry experts and complies with UK building regulations and the latest UK and European fire safety standards.

Zenova IP, thermal insulation paint

A thermal insulation paint embeds the most modern insulating technology in a thermos-like ultra-thin layer. It saves energy by increasing the thermal insulation level in commercial and residential buildings. Solar heat can increase the temperature within a building by 75% to 90%. Zenova IP has been independently tested and validated to deflect, absorb and dissipate up to 75% of this heat, thereby reducing the inside temperature by up to 45%. Suitable for both exterior and interior, on any type of surface

Zenova IR, thermal insulation render

Zenova IR is a ready mixed insulation render that can be applied to internal and external walls in commercial and residential buildings to provide immediate insulation benefits and can be colour matched to any colour.

Zenova FX, fire extinguishers

A fire extinguisher like no other. It puts out class A, B, F and electrical fires fully tested against European EN3 as well as British standards. Available in 6 and 9 litre sizes.

Zenova FX500, aerosol fire extinguisher

The Zenova FX500 is a high-performance handheld fire extinguisher that is tested by independent experts and adheres to the highest industry standards. Safe for use on any type of fire the Zenova FX500 reduces the risk of reignition. The Zenova FX 500 is quick, easy and safe to operated and has been tested to BS6165 standard.

Zenova WB, wildfire barrier

A wildfire barrier fluid (applied via spray wands or aerial drops), which provides a virtual barrier where fire simply will not burn. Repeated tests on a variety of extremely dry wildfire fuels (grasses, hays, brush) demonstrates the incredible fire resistance Zenova WB provides, while remaining viable after application for 30+ days in dry conditions.

About Reach announcements

Reach is an investor communication service aimed at assisting listed and unlisted (including AIM quoted) companies to distribute media only/non-regulatory news releases such as marketing messages, corporate and product information into the public domain. An RNS Regulatory announcement is required to be notified under the AIM Rules for Companies.
