

GALLIFORD TRY'S SPECIALIST SERVICES BUSINESSES WIN PLACES ON NHS FRAMEWORK

Galliford Try announces that it has won places on the new £835m NHS North of England Commercial Procurement Collaborative (NOE CPC) Specialist Estates Engineering & Maintenance Services (Hard FM) Framework, for its Asset Intelligence, Facilities Management (FM) and Oak Specialist Services businesses.

The business has secured places on nine lots of the framework covering security systems, fire protection and hard FM services, for a four-year period.

The success follows Galliford Try's Capital Markets Event in May, when the Group announced that the Specialist Services division, which encompasses the relevant business units, would be targeted for revenue and margin growth over the strategy period to 2030.

Bill Hocking, Chief Executive of Galliford Try, commented: "We are delighted to have been selected by NOE CPC for this framework that aligns with our Sustainable Growth Strategy goals of expanding our Specialist Services businesses.

"We look forward to working with NOE CPC's clients to maximise the benefits from the framework for all the stakeholders involved."
