Note to Editors

AdvancedAdvT Limited (AdvT) provides software solutions and platforms across two business transformational areas: business solutions & healthcare compliance, and human capital management.

The Group's operations are IBSS (financial management software), CHKS (AI based healthcare intelligence compliance and accreditation software), Retain (global resource planning and talent management software) and WFM (workforce management software provider).

AdvT is an agent for change. The Group enables the delivery of Artificial Intelligence ("AI"), data analytics and business intelligence, all of which are key future drivers for growth in these sectors where long term digitisation trends are set to transform the workplace for professionals.

AdvT is developing both organically and through acquisitions, by expanding its presence across adjacent markets, geographical boundaries and digital sectors.
