**About Eckoh plc**

As a global provider of Customer Engagement Data Security Solutions, Eckoh is all about making the world of data more secure.

Our vision is that everyone should be able to trust every brand and engage without risk to their personal information. We're on a mission to set the standard for secure interactions between consumers and the world's leading brands, and our innovative products build trust and deliver value through exceptional experiences.

We're trusted by many of the world's leading brands to help them manage the personal data from customer enquiries and transactions safely. Our solutions enable payment transactions to be performed securely and help protect sensitive personal data across any customer engagement channel and device the customer chooses.

Protected by multiple patents, our solutions remove sensitive personal and payment data from contact centres and IT environments, as the best way to secure data is not to collect it. This allows organisations to be not just compliant but secure, increase efficiency, lower operational costs, and provide an excellent customer experience. This is our specialism.

Our solutions are delivered globally through multiple cloud platforms or can be deployed on the client's site. They offer merchants a simple and effective way to reduce the risk of fraud, secure sensitive data and become compliant with the Payment Card Industry Data Security Standards ("PCI DSS") and wider data security regulations. Eckoh has been a PCI DSS Level One Accredited Service Provider since 2010, and our extensive portfolio of typically large enterprise clients spans a broad range of vertical markets including government departments, telecoms providers, retailers, utility providers and financial services organisations.
