Zenova Group PLC
("Zenova", the "Company" or the "Group")

Inaugural Order for 1500 Zenova FX500 extinguishers from leading UK Fire and Safety Distributor, O. Heap & Son Ltd

Zenova Group PLC (AIM: ZED) the innovative fire suppression and interdiction solutions Company, is pleased to announce an initial order for 1500 units of its performance-leading Zenova FX500 fire extinguishers from leading UK fire and safety distribution specialist, O. Heap and Son, Ltd. The Company has been informed that this order is strategic for O. Heap as the small, high-performance Zenova FX500 extinguisher fills a current gap in its extensive product suite.

O.Heap Fire and Security is a third-generation family-run business. O. Heap has been protection specialists since 1958 and are trusted by over 7,000 customers nationwide. O.Heap is using the wealth of knowledge and experience they have amassed as a company over the last 50 years, to 'Empower people to protect their business' by sharing with their customers the knowledge, expertise, and equipment to help protect their business.

Thomas Melchior, CEO of Zenova Group, commented, "O. Heap is a major player in the fire and safety space in the UK. Their 7,000 plus customers will ensure rapid exposure for the broader fire suppressing capabilities of our smallest extinguisher, the FX500. We hope and expect that this order will soon evolve into additional orders for Zenova FX500 extinguishers as well evolve in a wider distribution relationship with O. Heap covering the full Zenova product range and I look forward to updating our stakeholders soon on those developments."

About Zenova Group PLC

The Group, through Zenova Ltd, is the holder of intellectual property that underpins a suite of fire safety and temperature management products and technology. The product range is applicable to industrial, commercial, and residential markets. The Group's products include fire retardant paints, insulating paints and render, fire extinguishing fluid and fire extinguishers. Through innovative development, and a refined formulation and development process, Zenova provides industry leading solutions across a range of fire protection and temperature management problems, comprising:

Zenova FP, fire protection paint

A water based, fire protection paint (also known as a 'thermofoaming' or 'intumescent' paint), which can be used on any surface and colour matched to any colour. When exposed to heat or flames, the paint expands and creates a solid foam-like crust which will not burn and insulates the surface it is painted on. This prevents surfaces from catching fire and stops fire spreading. It has been tested by global fire industry experts and complies with UK

building regulations and the latest UK and European fire safety standards.

Zenova IP, thermal insulation paint

A thermal insulation paint embeds the most modern insulating technology in a thermos-like ultra-thin layer. It saves energy by increasing the thermal insulation level in commercial and residential buildings. Solar heat can increase the temperature within a building by 75% to 90%. Zenova IP has been independently tested and validated to deflect, absorb and dissipate up to 75% of this heat, thereby reducing the inside temperature by up to 45%. Suitable for both exterior and interior, on any type of surface

Zenova IR, thermal insulation render

Zenova IR is a ready mixed insulation render that can be applied to internal and external walls in commercial and residential buildings to provide immediate insulation benefits and can be colour matched to any colour.

Zenova FX, fire extinguishers

A fire extinguisher like no other. It puts out class A, B, F and electrical fires fully tested against European EN3 as well as British standards. Available in 6 and 9 litre sizes.

Zenova FX500, aerosol fire extinguisher

The Zenova FX500 is a high-performance handheld fire extinguisher that is tested by independent experts and adheres to the highest industry standards. Safe for use on any type of fire the Zenova FX500 reduces the risk of reignition. The Zenova FX 500 is quick, easy and safe to operated and has been tested to BS6165 standard.

Zenova WB, wildfire barrier

A wildfire barrier fluid (applied via spray wands or aerial drops), which provides a virtual barrier where fire simply will not burn. Repeated tests on a variety of extremely dry wildfire fuels (grasses, hays, brush) demonstrates the incredible fire resistance Zenova WB provides, while remaining viable after application for 30+ days in dry conditions.
