

Lucinda Crabtree joins Oxford Biomedica as Chief Financial Officer today

Oxford, UK - 2 September 2024: Oxford Biomedica plc (LSE:OXB) ("Oxford Biomedica", "OXB" or "the Company"), a quality and innovation-led cell and gene therapy CDMO, announces that Lucinda (Lucy) Crabtree Ph.D. has today joined Oxford Biomedica as Chief Financial Officer (CFO) and board member. Lucinda's appointment was previously [announced](#) on 17 July 2024.

Lucinda Crabtree was previously at MorphoSys AG where she served as CFO, leading a finance team across the US and Germany until the company's acquisition by Novartis. Previously, she was CFO at Autolus Therapeutics, a Nasdaq listed clinical stage biopharmaceutical company. Lucinda also brings extensive experience from the investment and banking sectors, having held roles at institutions including Woodford Investment Management, Goldman Sachs, and Jefferies.

Dr. Frank Mathias, Chief Executive Officer of Oxford Biomedica, commented: *"We are thrilled that Lucy has joined Oxford Biomedica as our new CFO and Board member today. Lucy brings a wealth of experience from her roles as a CFO and time as a healthcare investor and equity research analyst. Her experience will be invaluable as we grow our international position as a leading cell and gene therapy CDMO."*

Lucinda Crabtree, Chief Financial Officer of Oxford Biomedica said: *"I am excited to be joining Oxford Biomedica as CFO today. I firmly believe in the Company's growth strategy and am looking forward to working with the Board and the rest of the leadership team. Together, I'm confident we will fulfil our mission of enabling our growing client base to deliver life-changing therapies to patients."*

About Oxford Biomedica

Oxford Biomedica (LSE: OXB) is a quality and innovation-led contract development and manufacturing organisation (CDMO) in cell and gene therapy with a mission to enable its clients to deliver life changing therapies to patients around the world.

One of the original pioneers in cell and gene therapy, OXB has more than 25 years of experience in viral vectors; the driving force behind the majority of cell and gene therapies. OXB collaborates with some of the world's most innovative pharmaceutical and biotechnology companies, providing viral vector development and manufacturing expertise in lentivirus, adeno-associated virus (AAV), adenovirus, and other viral vector types. Oxford Biomedica's world-class capabilities span from early-stage development to commercialisation. These capabilities are supported by robust quality-assurance systems, analytical methods and depth of regulatory expertise.

OXB offers a vast number of unique technologies for viral vector manufacturing, including a 4th generation lentiviral vector system (the TetravectaTM system), dual plasmid system for AAV production, suspension and perfusion process using process enhancers and stable producer and packaging cell lines.

Oxford Biomedica, a FTSE4Good constituent, is headquartered in Oxford, UK. It has bioprocessing and manufacturing facilities across Oxfordshire, UK, Lyon and Strasbourg, France, and near Boston, MA, US. Learn more at www.oxb.com, and follow us on [LinkedIn](#) and [YouTube](#).
