("Aptitude", "the Group")

Finance Leader Insight Event: Putting AI-powered Autonomous Finance into practice

Aptitude (LSE: APTD), a market-leading provider of autonomous finance software solutions, is hosting an event with experts and partners from Microsoft, HSO, EY, BSI and TradeXBank to discuss the key tools required to ensure the greatest impact for AI on finance.

Earlier this year, Aptitude's Global Autonomous Finance Benchmark surveyed nearly 1,700 finance and IT professionals to understand their progress in Autonomous Finance and AI initiatives. This event will transform those findings into actionable strategies that can guide CFOs and their teams on their journey towards Autonomous Finance and show how companies can accelerate time to value in finance transformation.

The experts will discuss and demonstrate the optimal technology framework required to deliver a unified view of data, automation of manual processes to free capacity across teams, and effective use of AI.

The agenda for the event is as follows:

- A review of the Autonomous Finance benchmark and the journey to AI-powered Autonomous Finance
- CFO panel: From concept to implementation including building the business case for AI-driven Autonomous Finance
- Solution showcase: See Autonomous Finance in action

Event and registration details

The session will be held in-person at The London Stock Exchange, 10 Paternoster Square, London, EC4M 7LS, from 09:00-11:30, on 17 October 2024. A recording will be made available on the Aptitude website following the event.

If you would like to attend the event, please RSVP to aptitude@almastrategic.com.
