About ActiveOps

ActiveOps is a Software as a Service business, dedicated to helping organisations create MORE value from their service operations. ActiveOps' Decision Intelligence software solutions are specifically designed to support leaders with the vast number of decisions they make daily in the name of running their operations. Our customers make better decisions and consume less time and effort making them. The outcomes are significantly improved turnaround times and double-digit improvements in productivity with backlogs of work materially reduced. Customers also leverage the capacity created to invest in transformation and development, as well as to reduce levels of new recruitment.

The Company's AI-powered SaaS solutions are underpinned by 15+ years of operational data and its AOM methodology which is proven to drive cross department decision-making.

The Company has over 180 employees, serving a global customer base of enterprise customers from offices in the UK, Ireland, USA, Canada, Australia, India, and South Africa. The Group's customers are predominantly in the banking, insurance, healthcare administration and business process outsourcing (BPO) sectors, including Nationwide, TD Bank, Elevance and DXC Technology.
