**Notes**

Seed Innovations Ltd is an AIM quoted investment company offering exposure to disruptive, high-growth, life sciences and technology ventures typically inaccessible to everyday investors. Its strategy focuses on identifying early-stage opportunities with upcoming investment catalysts, alongside more mature investments providing near-

very large opportunities than opening investment earnings, amongst more limited investments providing short-term liquidity. With a portfolio of such investments and cash reserves, the company is agile and poised to capitalise swiftly on new investment opportunities.
