

13 November 2024

ASX Trading Halt

Aura Energy Limited (ASX: AEE, AIM: AURA) ('Aura' or the 'Company') announces that the Company has requested the Australian Securities Exchange ("ASX") to halt trading in its shares quoted on the ASX in accordance with ASX Listing Rule 17.1, pending a project update announcement from the Company.

The Company expects trading in its shares to resume on the ASX either when the expected announcement is made, or upon market open on the ASX on 15 November 2024, whichever is the earlier, and will provide the market with an update in due course.

Trading in the Company's ordinary securities will continue to trade as normal on AIM, a market operated by the LSE, during this period.

The full version of the ASX announcement can be seen here: http://www.rns-pdf.londonstockexchange.com/rns/0581M_1-2024-11-13.pdf

About Aura Energy (ASX: AEE, AIM: AURA)

Aura Energy is an Australian-based mineral company with major uranium and polymetallic projects in Africa and Europe.

The Company is focused on developing a uranium mine at the Tiris Uranium Project, a major greenfield uranium discovery in Mauritania. 2024 FEED Study^[1] and Updated Production Target^[2] demonstrated Tiris to be a near-term low-cost 2Mlbs U₃O₈ pa future uranium mine with a 25-year mine life with excellent economics and optionality to expand to accommodate future resource growth.

Aura plans to transition from a uranium explorer to a uranium producer to capitalise on the rapidly growing demand for nuclear power as the world shifts towards a decarbonised energy sector.

Beyond the Tiris Project, Aura owns 100% of the Häggån Project in Sweden. Häggån contains a global-scale 2.5Bt vanadium, sulphate of potash ("SOP")^[3] and uranium^[4] resource. Utilising only 3% of the resource, a 2023 Scoping Study^[5] outlined a 17-year mine life based on mining 3.5Mtpa.

Disclaimer Regarding Forward-Looking Statements

This ASX announcement (Announcement) contains various forward-looking statements. All statements other than statements of historical fact are forward-looking statements. Forward-looking statements are inherently subject to uncertainties in that they

Forward-looking statements and forward-looking estimates are inherently subject to uncertainties and that they may be affected by a variety of known and unknown risks, variables and factors which could cause actual values or results, performance or achievements to differ materially from the expectations described in such forward-looking statements. The Company does not give any assurance or guarantee that the anticipated results, performance or achievements expressed or implied in those forward-looking statements will be achieved.

The Company has concluded that it has a reasonable basis for providing the forward-looking statements and production targets included in this announcement and that material assumptions remain unchanged. The detailed reasons for this conclusion are outlined throughout this announcement, and in the ASX Releases, "Scoping Study Confirms Scale and Optionality of Häggån", 5 September 2023; "Aura's Tiris FEED Study returns Excellent Economics" 28 February 2024; "Tiris Uranium Project Enhanced Definitive Feasibility Study", 29 March 2023 and "Updated Production Target improves economics at Tiris Uranium Project" 11 September 2024.

ASX and JORC Related Disclosures

Mineral Resources

The information on Mineral Resources for the Tiris Uranium Project in this report is extracted from the ASX release on 12 June 2024 titled "Aura increases Tiris Mineral Resources by 55% to 91.3Mlbs".

The information on Mineral Resources for the Tiris Uranium Project in this report is extracted from the ASX release on 10 October 2019 titled "Häggån Battery Metal Project Resource Upgrade Estimate Successfully Completed". These reports can be viewed at <https://auraenergy.com.au/investor-centre/asx-announcements>.

The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.'

Production Targets

The information on Production Targets for the Tiris Uranium Project in this report is extracted from the ASX release on 11 Sept 2024 titled "Updated Production Target Improves Economics at Tiris". This report can be viewed at <https://auraenergy.com.au/investor-centre/asx-announcements>.

The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.
