We develop innovative and customised solutions, often used in extremely demanding industrial environments, which enable our customers to make their manufacturing processes safer, more efficient and morse sustainable. Â Â These include flow control solutions, advanced refractories and other consumable products and increasingly, related technical services including data capture. We have a worldwide presence. We serve our customers through a network of cost-efficient manufacturing plants located close to their own facilities, and embed our industry experts within their operations, who are all supported by our global technology centres.

Our core competitive strengths are our market and technology leadership, strong customer relationships, well established presence in developing

investment whilst providing each of our employees with a safe workplace where they are recognised, developed and properly rewarded.

Our ultimate goal is to create value for our customers, and to deliver sustainable, profitable growth for our shareholders giving a superior return on their

markets and our global reach, all of which facilitate the expansion of our addressable markets.

We think beyond today to create solutions that will shape the future.
