Kanabo Group Plc

The GP Service Wins Award

Kanabo Group Plc ("Kanabo" or "the Company"), a leader in medical cannabis and telemedicine innovation, is pleased to announce that its subsidiary, The GP Service, has been named the winner of the Lloyd's British Business Excellence Award for Tech Business of the Year. This prestigious recognition highlights The GP Service's leadership in healthcare technology, competing with some of the UK's most forward-thinking companies.

Strategic Growth and Innovation

Since its acquisition by Kanabo in February 2022, The GP Service has strengthened its position in the healthcare market through its robust technology platform and a network of over 6,000 pharmacies across the UK. This infrastructure facilitates secure and seamless electronic prescription delivery, demonstrating its scalability as a patient-focused solution bridging the gap between technology and accessible healthcare.

To align with its strategy of profitability and operational efficiency, The GP Service has restructured its clinical operations by outsourcing services to trusted third-party providers. This move reduces regulatory complexity while sharpening its focus on technology and scalability. This strategic shift enables The GP Service to concentrate on developing innovative solutions that enhance patient access and clinician support.

AI-Driven Expansion

The GP Service continues to refine its proprietary AI-powered Voice and Chat Bot technology, incorporating patient feedback and further testing to optimize its capabilities. Initial beta tests have shown promise. By automating patient consultations, gathering medical data, and supporting clinicians with prescription recommendations, this solution is poised to reduce administrative burdens, improve patient care, and enhance scalability.

Suleman Sacranie, Co-Founder of The GP Service, commented:

"This award is a powerful validation of our mission to make healthcare more accessible, efficient, and patient-focused. Competing against the UK's top technology companies, we're honored to be recognised for our innovation and impact. We look forward to continuing to redefine telemedicine and deliver value to patients and partners."

Ian Mattioli, Chairman of Kanabo Group Plc, added:

"The GP Service's recognition as Tech Company of the Year demonstrates its potential to set new benchmarks in healthcare innovation. While Kanabo supports its growth, The GP Service continues to chart its course as a scalable, technology-driven business delivering value to patients and partners."
