Notes:

Keras Resources (AIM: KRS) wholly owns the Diamond Creek organic phosphate mine in Utah, US. Diamond Creek is one of the highest-grade organic phosphate deposits in the US and is a fully integrated mine to market operation with in-house mining and processing facilities. Keras's 100% held subsidiary Falcon Isle Resources Corp. ("FIR") recently entered into a 50/50 Joint Venture with Idaho-based PhoSul LLC to produce PhoSul®, a certified organic 240 SGN granule tailored specifically to increase P₂O₅ available to crops, from FIR's Integrated Processing facility in Delta, Utah. The Integrated Processing Facility produces a variety of organic phosphate products including milled 10 mesh and 50 mesh P₂O₅ products as well as PhoSul® granules which can be tailored to customer organic fertiliser requirements.

The Company is focused on continuing to build market share in the fast-growing US organic fertiliser market and build Diamond Creek into the premier organic phosphate producer in the US.
