CAP-XX Limited
("CAP-XX" or "the Company")

Strategic Distribution Agreement with JM Elektronik to Expand Presence in Poland

The Board of CAP-XX, a global leader in supercapacitor and energy management system design, is pleased to announce the signing of a franchised distribution agreement with JM elektronik sp. z o.o. ("JM Elektronik"), a leading Polish-based electronic component distributor. This agreement grants JM Elektronik the rights to distribute CAP-XX's full range of high-performance supercapacitor products throughout Poland.

JM Elektronik will target key growth markets, including smart metering, home automation, point-of-sale systems, lighting, medical devices, and industrial controls. With its strong industry presence, JM Elektronik is well-positioned to drive demand for CAP-XX's innovative energy storage solutions across these sectors in Poland.

JM Elektronik was established over 30 years ago and is a family-owned company. It is a trusted supplier of electronic components and is one of the most prominent electronics manufacturing services providers in Poland with nearly 1,000 active clients.

CAP-XX's Chief Executive, Lars Stegmann, commented: "We are excited to partner with JM Elektronik to expand our market reach in Poland. Its extensive experience and strong customer relationships make it an ideal partner to introduce CAP-XX's supercapacitor technology to new industries and applications. This strategic alliance marks a significant milestone for CAP-XX as it continues to grow its international footprint and deliver advanced energy storage solutions for a smarter and more efficient world."

About CAP-XX

CAP-XX (LSE: CPX) is a leader in the design and manufacture of thin, flat supercapacitors and energy management systems used in portable and small-scale electronic devices, and to an increasing extent, in larger applications such as automotive and renewable energy. The unique feature of CAP-XX supercapacitors is their very high-power density and high energy storage capacity in a space-efficient prismatic package. These attributes are essential in power-hungry consumer and industrial electronics and deliver similar benefits in automotive and other transportation applications.

About JM Elektronik

JM Elektronik is a leading Polish distributor of electronic components and EMS provider, offering comprehensive support for customers in electronics design and production. The company is committed to providing high-quality products and services that drive technological innovation.

About Reach announcements

This is a Reach announcement. Reach is an investor communication service aimed at assisting listed and unlisted (including AIM quoted) companies to distribute media only / non-regulatory news releases into the public domain. Information required to be notified under the AIM Rules for Companies, Market Abuse Regulation or other regulation would be disseminated as an RNS regulatory announcement and not on Reach.

This information is provided by Reach, the non-regulatory press release distribution service of RNS, part of the London Stock Exchange. Terms and conditions relating to the use and distribution of this information may apply. For further information, please contact ms@lseg.com or visit www.ms.com.

RNS may use your IP address to confirm compliance with the terms and conditions, to analyse how you engage with the information contained in this communication, and to share such analysis on an anonymised basis with others as part of our commercial services. For further information about how RNS and the London Stock Exchange use the personal data you provide us, please see our [Privacy Policy](#).
