New Website Launch

Mast Energy Developments PLC is pleased to announce the launch of its new website. The new website will retain the same URL and address as the former website and can be accessed at www.med.energy. The new website also contains MED's latest corporate presentation.

Pieter Krügel, MED CEO, commented: *"We are electrified about the launch of our new website and corporate presentation. Our new website has been completely redesigned and contains all the latest key information regarding MED's strategy, business model, projects, and achievements to date. This follows the ongoing positive developments and successes since we started the comprehensive refurbishment programme at our Pyebridge 8.1MW flexible power generation site in partnership with RiverFort during 2024."*

"We believe that our new website is an exciting reflection of our strategy and proven business model, on our road to growing our portfolio of MWs in production to 300+ and cementing MED's place as the UK's first and leading publicly listed flexible power generation company."
