About Induction - www.inductionhealthcare.com

Induction (AIM: INHC) Induction delivers a suite of software solutions through a single integrated platform that transforms care delivery. Our system-wide applications help healthcare providers and administrators to deliver care at any stage remotely as well as face-to-face - giving the communities they serve greater flexibility, control and ease of access . Purpose-built for integration with leading Electronic Medical Record (EMR) platforms, our products offer immediate stand-alone value that becomes even greater when integrated with pre-existing systems.

Used at scale by national and regional healthcare systems, as well non-health government services, our applications are relied upon by hundreds of thousands of clinicians and millions of patients across almost every hospital in the British Isles.
