

30 January 2025

Technology Minerals Plc

("Technology Minerals" or the "Company")

Recyclus lithium-ion battery recycling plant site visit

Technology Minerals Plc (LSE: TM1), the first UK listed company focused on creating a sustainable circular economy for battery metals, is pleased to announce that its 48.35% owned battery recycling business, Recyclus Group Ltd ("Recyclus"), will be hosting a tour for Technology Minerals shareholders of the Recyclus Wolverhampton lithium-ion ("Li-ion") battery recycling facility on 27 February 2025.

The event will run from 11.00 - 13.00 GMT and will consist of a tour of the site and a presentation by Director of Recyclus and Chairman of Technology Minerals, Robin Brundle. No new material information will be provided at the event.

Spaces are limited and will be offered on a first-come, first-served basis. Please email shareholders@technologyminerals.co.uk to register your interest.

Technology Minerals Plc

Technology Minerals is developing the UK's first listed, sustainable circular economy for battery metals, using cutting-edge technology to recycle, recover, and re-use battery technologies for a renewable energy future. Technology Minerals is focused on raw material exploration required for Li-ion batteries, whilst solving the ecological issue of spent Li-ion batteries, by recycling them for re-use by battery manufacturers. Further information on Technology Minerals is available at www.technologyminerals.co.uk.

Recyclus Group Ltd

The demand for the raw materials used in battery manufacturing is anticipated to increase substantially. Recyclus Group provides a national recycling initiative that supports the transition to carbon neutrality. Recyclus Group's battery recycling capacity will prove essential in the shift from fossil fuels to electric transportation. Through its strategic support from Technology Minerals, Recyclus is an integral component to the recycling of lithium-ion batteries and is a significant contributor towards the circular economy for battery metals. Further information on Recyclus Group is available at <https://www.recyclusgroup.com/>.
