About Augmentum Fintech

Augmentum invests in fast growing fintech businesses that are disrupting the financial services sector. Augmentum is the UK's only publicly listed investment company focusing on the fintech sector in the UK and wider Europe, having launched on the main market of the London Stock Exchange in 2018, giving businesses access to patient capital and support, unrestricted by conventional fund timelines and giving public markets investors access to a largely privately held investment sector during its main period of growth.
