**Savannah Resources Plc  
(AIM: SAV) ('Savannah', or the 'Company')**

**Savannah CEO interviewed on Dig Deep The Mining Podcast**

Savannah Resources Plc, the developer of the Barroso Lithium Project (the 'Project') in Portugal, Europe's largest spodumene lithium deposit, is pleased to announce that an interview recorded recently by its Chief Executive Officer, Emanuel Proença, on [Dig Deep The Mining Podcast](#) has now been released. The interview can be viewed at <https://www.youtube.com/watch?v=kKCwktn0sY>.

In the podcast, Emanuel provides insights into a number of topics including, the progress Savannah is making at the Project and the next key milestones, how the Company is contributing to Portugal's energy transition, Europe's evolving lithium supply chain and the region's push for self-sufficiency.

Savannah - **Enabling Europe's energy transition.**

**About Savannah**

Savannah Resources is a mineral resource development company and the sole owner of the Barroso Lithium Project (the 'Project') in northern Portugal, the largest battery grade spodumene lithium resource outlined to date in Europe.

Through the Project, Savannah will help Portugal to play an important role in providing a long-term, locally sourced, lithium raw material supply for Europe's lithium battery value chain. Once in operation the Project will produce enough lithium (contained in c.190,000tpa of spodumene concentrate) for approximately half a million vehicle battery packs per year and hence make a significant contribution towards the European Commission's Critical Raw Material Act goal of a minimum 10% of European endogenous lithium production

from 2030. Savannah is being supported in its development goals by its strategic partner and largest shareholder, AMG Critical Materials N.V., the global critical materials business.

Savannah is focused on the responsible development and operation of the Barroso Lithium Project so that its impact on the environment is minimised and the socio-economic benefits that it can bring to all its stakeholders are maximised.

The Company is listed and regulated on the London Stock Exchange's Alternative Investment Market (AIM) and trades under the ticker "SAV".
